AND/OR

Negative/Disadvantages

- Increases cost as the process requires a large amount of paper work.
- Implementation of the SDA can be difficult to monitor and control.
- Skills programmes may not always address training needs of employees.
- Skills Development Levy could be an extra burden to financially struggling businesses.
- It may be monitored and controlled by government departments that do not have education and training as their key priorities.
- The SETAs may not be well organised and many courses offered by companies may not have unit standards that relate to the course content.
- Many service providers that offer training services are that not SAQA accredited.
- Many businesses may not support this government initiative.
- Employees are expected to attend learnerships during work hours which could affect the production process/productivity.
- Costly for businesses to employ a person to implement, manage and control learnerships.
- The time and money spent on improving employee skills is wasted if they leave the business.

Discriminatory actions according to the SDA

- Preventing employees from signing for a learnership due to their age or position in the workplace.
- Unfair development of skills and training to certain employees.
- Developing a workplace skills plan which exclusively caters for certain race/gender.
- Prioritising only senior management for training and skills development programmes.

Penalties for non-compliance

- Businesses that do not pay the Skills Development Levy may not offer learnerships/claim grants from the SDA.
- A labour inspector could order the business to stop operating should the business be found guilty of illegal practices.

National Credit Act

Purpose of the NCA

- Promotes the social and financial interest of consumers.
- Promote a fair but competitive credit market.
- Ensure that consumers know what is included in their credit contracts.
- Prevent discrimination and ensure credit is available to all consumers.
- Makes provision for the establishment of the NCR.
- Ensure registrations of credit bureau and debt counselling services.

Impact of the NCA on businesses

Positives/Advantages

- The whole credit process is transparent e.g. both businesses and customers know their responsibilities
- Authorised credit providers may attract more customers.
- Lower bad debts resulting in better cash flow.
- Increases cash sales as credit can only be granted to qualifying customers
- Protects businesses against non-paying consumers.
- Stamps out reckless lending and prevents businesses from bankruptcy.
- Businesses do thorough credit checks and receive up-to-date documentation from the consumer as proof that they can afford the repayment.
- Leads to more customers through credit sales as they are now protected from abuse.
- Credit bureau information is made available to businesses so that they can check the credit worthiness of consumers before granting credit.

AND/OR

Negative/Disadvantages

- Businesses can no longer carry out credit marketing.
- Leads to loss of sales as many consumers may no longer qualify to buy on credit.
- The paperwork and administrative process required by the act are costly and time consuming.

- The business needs to appoint additional staff to deal with the extra administration.
- Should the credit agreement be declared reckless the business can forfeit the outstanding debt and the goods.
- Businesses that are official credit providers, must submit a compliance report every year.
- A business must make sure that all attempts have been made to recover the debt before blacklisting the customer.
- Debt collection procedures are more complex and expensive.
- Credit providers cannot collect from consumers who are under debt reviews.
- Increases the administration burden on credit providers.
- More working capital is needed as businesses cannot sell many goods on credit due to stricter credit application processes.
- Fewer customers buy on credit as it is more difficult to obtain credit.
- Businesses struggle to get credit such as bank loans/overdrafts.
- Businesses that do not comply with the NCA may face legal action.

Discriminatory actions according to the NCA

- Refusing credit to customers based on gender/race.
- Charging different interest rates to customers based on gender/race

HUMAN RESOURCES ACTIVITIES

RECRUITMENT

Meaning of recruitment

- Recruitment is the process used by business to identify vacancies in the business and attract suitable candidates for it.
- It aims at finding candidates who have the necessary knowledge/ experience/ qualification to fill the vacancy.
- Businesses may choose to use an internal or external method of recruitment depending on the nature/requirements of the vacancy.
- It is an on-going process as employees leave their jobs for other jobs/get promoted /retire/as new technological skills are required.

Recruitment procedure

- The human resource manager (HRM) should prepare the job description in order to identify recruitment needs.
- HRM should indicate the job specification/description/key performance areas to attract suitable candidates.
- Prepare a job analysis, which includes job specification and job description.
- A decision whether to recruit internally should be made to identify suitable candidates from within the business.
- If internal recruitment is unsuccessful, external recruitment should be considered.
- If the external recruitment is done, the relevant recruitment source should be selected, e.g. recruitment agencies, tertiary institutions, newspapers,
- The advertisement should be prepared with the relevant information, e.g. the name of the company, contact details, contact person, etc.
- Place the advertisement in the appropriate media that will ensure that the best candidates apply.

Differences between job description and job-specification

JOB DESCRIPTION	JOB SPECIFICATION
<ul style="list-style-type: none"> • Describes duties/responsibilities of a specific job/summary of the nature /type of the job. 	<ul style="list-style-type: none"> • Specifies the minimum acceptable personal qualities/ skills/ qualifications needed for the job.

-Various alternatives are considered before deciding on the best one.	-Alternative solutions are generated/ identified and critically evaluated.
-It is part of the problem solving cycle as decisions need to be taken in each step.	-Process of analysing a situation to identify strategies to bring about change.

Problem solving steps

- Identify the problem.
- Define the problem.
- Identify possible solutions to the problem.
- Select the most appropriate alternative.
- Develop an action plan.
- Implement the suggested solution/action plan.
- Monitor the implementation of the solution/action plan.
- Evaluate the implemented solution.

Application of problem solving steps

Identify the problem

- Identify the exact problem
- Acknowledge that there is a problem

Define the problem

- The nature of the problem must be precise.
- Define the possible causes of the problem
- Gather as much information as possible to establish the cause of the problem.

Identify alternative solutions

- Identify all different possible solutions
- Decide on the cause

Evaluate alternative solutions

- Use critical evaluation and analytical skills to evaluate each solution.
- Consider the advantages and disadvantages of each alternative solution.

Choose the best solution

- Set criteria for the best solution, in terms of aspects such as time/cost/risk involved
- Identify which solution will be used
- The best solution should match the size and the resources of the business.
- If the solution is not appropriate, the business should go back to defining the problem.

Formulate/Develop an action plan/strategy

- Arrange the necessary resources and delegate tasks.
- Establish a time line for implementation and set deadlines

Implement the action plan

- Carry out the planned actions/solution.
- Communicate delegated tasks/deadlines to employees.

Evaluate the solution/action plan

Problem solving techniques

- Delphi technique
- Force field analysis
- Brainstorming
- -Mind mapping
- Nominal group technique
- SCAMPER
- Forced combination
- Empty chair

Impact of problem solving techniques

Impact of Delphi technique

Positives/Advantages

- Businesses may use a group of experts without bringing them together.
- The experts will give the business clear ideas/solutions on how to improve on productivity/profitability.
- Information received from experts can be used to solve complex business problems.
- Experts may give honest/credible opinions as they do not have a direct/personal interest in the business.
- Conflict may be avoided especially if all employees are knowledgeable and well qualified.
- Dominating employees may not take over the process as they do not form part of the problem solving process.
- It reduces noise levels in an office environment since there is no group discussion.

AND/OR

Negatives/Disadvantages

- It is an expensive technique to use due to high administrative costs.
- May be time consuming/complicated to analyse data received from experts.
- Not all experts are willing/interested to give feedback/complete questionnaires.
- Some experts might not have an in-depth knowledge of certain topics.

- Experts' suggestions may not be considered by some employees so consensus may not be reached.

Impact of the Force-Field Analysis

Positives/Advantages

- It provides a visual summary of all the various factors supporting and opposing a particular idea
- Employees feel included and understood.
- Employees develop and grow with the business.
- Informed decisions can be made as forces for and against are critically evaluated.
- Enables businesses to strengthen the driving forces and weaken the restraining forces.
- Businesses are able to have an idea of the timeline required and the requirements of additional resources.

AND /OR

Negatives/Disadvantages

- It is time consuming since the business must stabilise before more changes can be made.
- Requires the participation of all business units
- The analysis developed is entirely dependent upon the skill level and knowledge of the group working on the analysis.

The impact of brainstorming

Positives/Advantages

- Better solutions are developed through collective contributions.
- Combinations of ideas/improvements can be chosen after all the ideas have been written down.
- Employees are motivated as they are allowed to contribute to problem solving.
- Stimulates creative thinking in the workplace.
- People get ideas from others and build on them.

AND/OR

Negatives/Disadvantages

- Brainstorming is time consuming as all stakeholders/employees may generate too many ideas which can delay decision making.
- Some team members may dominate discussion.
- Fear of criticism may prevent full participation in brainstorming sessions.
- It may lead to 'group think'/some individuals may not give their opinions.
- Discussion may result in conflict due to differences in opinion

The impact of mind mapping

Positives/Advantages

- Easy to generate ideas and enhances memory

- Stimulate the brain and makes people focus on the links and relationships between ideas.
- Easy to remember since the topic texts of mind maps are keywords and short phrases.
- Helps people to focus and understand the work better.
- Creates a deeper understanding of the work or topic.
- Helps people to combine information from different research resources.
- People are able to think through complex problems.

AND/OR

Negatives/Disadvantages

- Some people find it messy and chaotic
- Can become complicated as mind maps can become too big people are not able to structure keywords.
- Requires a sound knowledge of the topic

The impact of the Nominal group technique

Positives/Advantages

- It provides time to think about the question in silence before responding
- Each team member/director has a chance to participate without interference from other team members.
- Voting on the ideas is anonymous and may be more reliable/honest.
- Everyone in the group is given an opportunity to contribute to the discussion, while avoiding the likelihood of one person dominating the group process.
- Enables the group to generate and clarifies a large amount of ideas quickly, and democratically prioritises them.
- It encourages participants to confront issues through constructive problem solving
- Strong technique for preventing conformity to group pressure.

AND/OR

Negatives/Disadvantages

- It minimises discussion, and thus does not allow the full development of ideas.
- Ideas/Inputs made by members may not converge and cannot lead to the same solution(s).
- Suggestions may not be as creative as when a group throws ideas around.
- It is time consuming, as each member must make a presentation.
- It is hard to implement it effectively with large groups unless very carefully planned beforehand
- Requires extended advance preparation, which means that it cannot be a spontaneous technique
- Good ideas can be voted out because its potential cannot be developed further

- Small groups limit participation and are pre-selected.

The impact of SCAMPER

Positives/Advantages

- Encourages people to come up with new and innovative solutions.
- The processes of re-arranging and combining different components of a business procedure allows participants to examine each step.
- Frees the participants' minds to look in unexpected places for the answers to their business needs.
- Can reveal where obstacles and bottlenecks occur in current practices and develop solutions to combat these barriers.
- Forces people to think differently.

AND/OR

Disadvantages/Negatives

- Success depends on groups being unconventional
- It is time consuming and not suitable for all groups

The impact of Forced combination

Positives/Advantages

- Allows people to think outside the box
- Creative and valuable business ideas can be developed

The impact of Empty chair

Positives/Advantages

- Managers are able to get things out in the open and practice dialogues before confronting employees.
- Justify solutions
- Helps a person to become more self-aware, particularly in terms of recognizing and understanding the relationship between your responses and your present situation
- The person has the opportunity to put his/her point across and decide to take the position of other imaginary person.
- Helps in understanding another person's point of view.

AND/OR

Negatives/Disadvantages

- Limits creativity as the person makes decisions alone
- One person's view is applied and this may not always be a best view.

Application of the problem solving techniques

Application of the Delphi technique

- Businesses must invite a panel of experts to research the complaints from customers.
- Experts do not have to be in one place and will be contacted individually.
- Design a questionnaire consisting of questions on how to improve the quality of their products and distribute it to the panel members/experts.
- Request the panel to individually respond to the questionnaire/suggest improvements to the products and return it to the business
- Summarise the responses from the experts in a feedback report.
- Send the feedback report and a second set of questions/questionnaire based on the feedback report to the panel members.
- Request panel members to provide further input/ideas on how to improve the quality of products after they have studied the results/documentation.
- Distribute a third questionnaire based on previous feedback from the second round.
- Prepare a final summary/feedback report with all the methods to improve the quality of the business's products
- The business should choose the best solution/proposal after reaching consensus.

Application of Force-Field Analysis technique

- Describe the current situation/problem and the desired situation.
- List all driving/pros and restraining/cons forces that will support and resist change.
- Allocate a score to each force using a numerical scale, where 1 is weak and 5 is strong.
- Weigh up the positives and negatives then decide if the project is viable.
- Choose the force with the highest score as the solution.
- If the project is viable, find ways to increase the forces for change.
- Identify priorities and develop an action plan.

Application of brainstorming technique

- State/Define the business problem clearly, so that all participants/stake-holders understand the problem.
- Members state possible causes of the business problems.
- Set a time limit for each brainstorming session.
- Record/Write ideas down, where all participants can see it./Ideas may also be shared online during an E-brainstorming session.
- Use each suggestion, to inspire new thoughts/ideas.
- Do not judge/criticise/discuss the ideas, so that many ideas could be generated as quickly as possible.
- All members of the group randomly make suggestions.
- The group rates ideas according to its usefulness/success/difficulty/cost to implement.
- The group evaluates all ideas, and combines similar ones/draw up a refined list.
- Discuss a plan of action on how to implement the best ideas.

Application of Nominal-group technique

- Encourage group to clearly define the problem/to improve the quality of their products due to various complaints so that all the small groups can work on the same problem.
- The business must divide the employees into smaller groups.

- Request each employee to silently brainstorm /generate many ideas on his/her own, on how the quality of their paint can be improved and to write it down.
- Each employee in the small group has the opportunity to give one of his/her idea/solution with a short explanation.
- Appoint one employee to write the ideas/solutions on a large sheet of paper/ capture solutions electronically on computer for all to see.
- Allow each employee to give a second solution until all possible solutions have been recorded.
- Encourage employees to ask clarity seeking questions.
- Discourage criticism of ideas/solutions as this may prevent others from giving their solutions.
- The business must eliminate ideas that are duplicated/ similar.
- Each employee must read through all the suggestions and anonymously rate them giving the highest points for the best solution.
- Collect the ratings and calculate total points.
- Small groups must present one solution to the large group that was deemed best according to the scores/votes in their small groups.

Application of SCAMPER

S-Substitute

- Substitute some parts of the parts of the product with something else
- Replace part of the problem with something new

C-Combine

- Arrange parts of a problem in a creative way to cancel out the problem

A-Adapt

- Look at existing solutions and adapt them to solve the current situation.
- Look at the new trend for products and adapt the old product to attract more customers

M-Modify/Magnify

- Exaggerate the problem and see if there is a part of it that can be adjusted to solve the whole problem.
- Put some new parts into the product to attract more customers

P-Put to other uses

- Make alterations to use it for other purposes

E-Eliminate

- Get rid of some parts of the problem or reduce them down

R-Reverse/Rearrange

- Push the idea around and rearrange in order to think of it differently.

Application of Mind maps

- Decide on the central problem/topic and find a word/picture that captures it.
- Break down the central theme into main ideas/points.
- Break the ideas down further into sub-points.
- Use colour and shapes to help sort ideas logically.

Application of Forced combinations

- Give employees a list of random words/pictures/objects.
- Employees should then create connections between the problem at hand and their item.
- Employees should answer questions like “how could this item solve our problem”?

Application of empty chair

- Speak to an empty chair and imagine another person sitting

Ways in which a business can create an environment that stimulates/promote creative thinking

- Emphasise the importance of creative thinking to ensure that all staff know that management want to hear their ideas.
- Encourage staff to come up with new ideas/opinions/solutions.
- Make time for brainstorming sessions to generate new ideas, e.g. regular workshops/ generate more ideas/build on one another's ideas.
- Place suggestion boxes around the workplace and keep communication channels open for new ideas.
- Train staff in innovative techniques/creative problem solving skills/mind-mapping/ lateral thinking.
- Encourage job swops within the organisation/studying how other businesses are doing things.
- Encourage alternative ways of working/doing things.
- Respond enthusiastically to all ideas and never let anyone feel less important.

TOPIC: STRATEGIES

CONTENT DETAILS FOR TEACHING, LEARNING AND ASSESSMENT PURPOSES

Learners must be able to:

- Define a strategy
- Outline/Describe/Explain/Discuss the strategic management process.
- Apply the strategic management process to solve business-related problems.
- Identify business challenges from given case studies.
- Identify and describe/explain/discuss the different types of business strategies.
- Devise/Develop/Analyse/Formulate strategies to overcome challenges from given scenarios of businesses and make recommendations for improvement.
- Explain how/when businesses can apply each type of business strategy.
- Evaluate the effectiveness (positives) of each type of business strategy.
- Analyse case studies and apply the following industrial analysis tools to analyse the challenges of the business environment:
 - SWOT analysis
 - Porter's Five Forces
 - PESTLE analysis
- Recommend business strategies to address challenges identified from given case studies/scenarios.
- Outline/Explain/Recommend activities/steps in strategy evaluation.

Term	Definition
Formulation of strategies	To devise/develop a strategy.
Implementation of strategies	This takes place after the formulation of the strategy and involves all the activities that are required for putting the strategy into action.

Evaluation of strategies	This takes place after the implementation of the strategy and determines whether the implemented strategy resolved the challenge.
Industry analysis tools	SWOT, Porter's Five Forces and PESTLE analysis models are used to analyse the challenges posed by business environments.
Suppliers	Include factories/providers of goods/services that businesses would obtain/buy from in order to operate their business.
Buyers	The final users of the product/services.
Competitors	All other businesses selling the same/similar products/services
Substitute product or service	Different products/services that satisfy the same needs of consumers and can be used to replace one another.
New Entrants	New businesses that are selling the same/similar products entering the market for the first time.

Definition of a strategy

- A strategy is a long term plan of action to achieve a goal.
- A strategy is a plan of action to address an opportunity or to solve a problem.
- The business needs a strategy to achieve its vision and mission.

1.1 Steps in developing a strategy

- Application of SWOT analysis/PESTLE/Porter's Five Forces/environmental scanning of the business environments.
- Formulate strategies to meet objectives/Develop measurable strategic goals/ objectives.
- Implement strategies using action plans, etc.
- Evaluation of strategies/Compare the expected performance with the actual Performance / Measure business performance in order to determine the reasons for deviations and analyse these reasons, etc.

1.2 The strategic management process

Option 1

- Have a clear vision, a mission statement and measurable/realistic objectives in place.
- Identify opportunities/weaknesses/strengths/threats by conducting environmental scanning/situational analysis.
- Tools available for environmental scanning may include a SWOT analysis/Porter's Five Forces model/PESTLE analysis/industrial analysis tools.
- Formulate alternative strategies to respond to the challenges. **(This involves different types of business strategies)**
- Develop (an) action plan(s), including the tasks to be done/deadlines to be met/resources to be procured, etc.
- Implement selected strategies by communicating it to all stakeholders/organising the business's resources/motivating staff.
- Continuously evaluate/monitor/measure strategies in order to take corrective action. **(This involves steps in evaluating a strategy)**

Option 2

- Review the vision statement.
- Analyse/Re-examine mission statement.

- Conduct an environmental analysis using models such as PESTLE/ PORTER'S/SWOT.
- Formulate a strategy such as a defensive/retrenchment strategy.
- Implement a strategy, using a template such as an action plan.
- Control/Evaluate/Monitor the implemented strategy to identify gaps/deviations in implementation.
- Take corrective action to ensure goals/objectives are met.

NOTE: The steps may be in any order.

1.3 INDUSTRIAL ANALYSIS

1.3.1 COMPILATION OF A SWOT ANALYSIS

<p style="text-align: center;">STRENGTHS</p> <ul style="list-style-type: none"> • What advantages does your organisation have and what do you do better than anyone else? • What unique or lowest-cost resources can you draw upon that others can't? • Do you have skilled employees and a strong customer base? • Do you provide high quality product? • Do you have sufficient resources? • What is your core competency? 	<p style="text-align: center;">WEAKNESSES</p> <ul style="list-style-type: none"> • High cost infrastructure • High employee turnover • Weak brand portfolio • High debts level • What are people in your market likely to see as weaknesses? • What factors cause loss of sales • Are your competitors doing any better than you?
<p style="text-align: center;">OPPORTUNITIES</p> <ul style="list-style-type: none"> • Market growth for the business product. • New technology that will enhance quality services and products • Changing customer habits. • Disposable income level will increase. • Government's incentives for 'specific industry • Growing number of people buying on line (electronic marketing) • What good opportunities can you spot? 	<p style="text-align: center;">THREATS</p> <ul style="list-style-type: none"> • Corporate tax may increase • Rising pay levels. • Intense competition. • Increasing fuel price. • Aging population. • Stricter laws regulating environment pollution • Currency fluctuations. • Changing technology.

NOTE: The SWOT analysis is usually assessed in the form of a scenario as indicated below:

Example of a scenario that requires learners to compile a SWOT analysis

DAVE DIGITAL SOUND (DDS)

DDS specialises in selling radios and car sound systems. They employ qualified sound engineers. The business does not have sufficient capital to buy and sell sound systems that cater for large events. Businesses in the same industry are closing down due to ineffective marketing campaigns. DDS is located in a high crime area.

An example of a SWOT analysis of Dave Digital Sound DDS

<p style="text-align: center;">STRENGTHS</p> <ul style="list-style-type: none"> • DDS employs qualified sound engineers. • DDS specialises in selling radios and car sound systems. 	<p style="text-align: center;">WEAKNESSES</p> <ul style="list-style-type: none"> • The business does not have sufficient capital to buy/sell sound systems that cater for large events.
<p style="text-align: center;">OPPORTUNITIES</p> <ul style="list-style-type: none"> • Businesses in the same industry are closing down due to ineffective marketing campaigns. 	<p style="text-align: center;">THREATS</p> <ul style="list-style-type: none"> • DDS is located in a high crime area.

NOTE: You need to quote verbatim (as is) from the scenario, otherwise you will lose marks for writing incomplete quotes or for writing a summary of the scenario.

1.3.2 PORTERS' FIVE FORCES MODEL

- Power of suppliers
- Power of buyers
- Power of competitors/Competitive rivalry
- Threat of substitution/substitutes
- Threat/Barriers of new entrants to the market

NOTE: Ensure that you are able to correctly name the above mentioned Porter's Five Forces model to avoid losing marks.

1.3.3 APPLICATION OF PORTERS' FIVE FORCES MODEL

Power of suppliers

- Assess the power of the suppliers in influencing prices
- Suppliers that deliver high quality product may have power over the business.
- The more powerful the suppliers, the less control the business has over them.
- The smaller the number of suppliers, the more powerful they may be as the choice of suppliers may be limited.
- Identify the kind of power suppliers' have in terms of the quality of products/services/reliability/ability to make prompt deliveries, etc.

Power of buyers

- Assess how easy it is for buyers/customers to drive prices down.
- Buyers buying in bulk can bargain for prices in their favour
- Conduct market research to gather more information about its buyers.
- Determine the number of buyers/the importance of each buyer to the business and the cost of switching to other products.
- A few powerful buyers are often able to dictate their terms to the business.
- If buyers can do without the business's products then they have more power to determine the prices and terms of sale.

Power of competitors/Competitive rivalry

- If competitors have a unique product/service, then they will have greater power.
- A business with many competitors in the same market has very little power in their market.
- Draw up a competitor's profile so that they can determine their own strength as well as that of competitors.
- Some businesses have necessary resources to start price wars and continue selling at a loss until some/all competitors leave the market.

Threat of substitution/substitutes

- If the business's product can be easily substituted, it weakens the power of the business in the market.
- Establish whether the sellers of substitute products have improved their product/sell lower quality goods at lower prices.
- If the business sells unique products it will not be threatened by substitute products.
- Assess if customers are using substitute products/services and determine reasons for using substitutes.

downloaded from Stanmorephysics.com

Threat/Barriers of new entrants to the market

- If the barriers to enter the market are low, then it is easy for new businesses to enter the market/industry.
- If there are a few suppliers of a product/service but many buyers, it may be easy to enter the market.
- If the business is highly profitable, it will attract potential competitors that want to benefit from high profits.
- New competitors can quickly/easily enter the market, if it takes little time/ money to enter the market.

NOTE: The main aim of Porter’s Five Forces model is to analyse the business position in the market. This is more of a research study done by businesses. Do not focus on recommendations as this is not form part of an analysis. You must also be able to identify Porter’s Five forces model from given statements and scenarios.

1.3.4 PESTLE ANALYSIS

- Political factors
- Economic factors
- Social factors
- Technological factors
- Legal factors
- Environmental factors

NOTE: Ensure that you are able to name and identify the PESTLE factors from given statements/scenarios.

1.3.5 CHALLENGES POSED BY THE PESTLE FACTORS AND RECOMMENDATIONS

NOTE: You need to name the PESTLE factor, identify challenges of each factor and recommend ways businesses can deal with the identified challenges as explained in the table below:

FACTOR	CHALLENGES	RECOMMENDATIONS
Political	<ul style="list-style-type: none"> • High inflation/Interest rate may decrease the market share of businesses as customers cannot afford high prices/Increase in taxes will result in lower customer spending. • Loans may be expensive due to high interest rates. • Fluctuations in foreign currency may restrict imports. • Trade agreements may prevent businesses from importing some medicine/products. 	<ul style="list-style-type: none"> • Research recent government policies • Network and lobby with the NGOs and all consumer rights organisations. • Trade only with countries that have favourable trade agreements with the government.
Economic	<ul style="list-style-type: none"> • Inflation/Interest rates may negatively impact on business. • Loans may be expensive due to high interest rates. • Fluctuations in foreign currency may restrict import. 	<ul style="list-style-type: none"> • Consider decreasing profit margins rather than increasing product prices. • Borrow money from financial institutions when interest rates are favourable. • Consider exchange rates when trading with other countries
Social	<ul style="list-style-type: none"> • Customers may not be able to afford products due to low income levels/high unemployment. 	<ul style="list-style-type: none"> • Sell substitute/generic products at lower prices. • Learn local languages/Hire employees who are well conversant with the local language.

	<ul style="list-style-type: none"> • Businesses may not be conversant with the language of their customers. • Some customers may prefer to spend their money on medical bills for the treatment of chronic illnesses. • High crime rate may affect the trading hours of businesses resulting in decreased profit. 	
Technological	<ul style="list-style-type: none"> • Businesses may not keep up with/be aware of the latest technology. • Employees may not be skilled to operate/maintain new technology/equipment. • Businesses may not be able to afford new technology. • May not be able to cater for/ afford online transactions/e-commerce. 	<ul style="list-style-type: none"> • Continuous research on the latest available technology/equipment in the market. • Train existing/appoint new employees to maintain/use new equipment. • Compare prices/Select suitable suppliers for new equipment at reasonable prices. • Businesses must be geared for online trading/e-commerce
Legal	<ul style="list-style-type: none"> • Certain Acts may have a direct impact on a business, e.g. the CPA/BCEA. • Legal requirements for operating certain types of businesses time-consuming. • High legal costs involved in obtaining a licence/trade mark/patent may prevent some establishments. • Legalities of business contracts may limit business operations 	<ul style="list-style-type: none"> • Comply with all relevant legislation that may impact on businesses. • Comply with the legal requirements for operating businesses, e.g. licence/trade mark registration/patents. • Budget for high legal establishment costs. • Businesses must know the legalities of business contracts so that they comply with all the requirements.
Environmental	<ul style="list-style-type: none"> • Chemicals/Ingredients in business' products may be harmful to customers • Measures to dispose of business waste may be expensive. • Packaging of some products may not be environmentally friendly may not be recyclable. 	<ul style="list-style-type: none"> • Chemicals/Ingredients should be clearly indicated on labels/packaging to inform customers about possible side effects/correct use of products. • Implement cost effective measures to dispose of medical waste. • Implement recycling measures to prevent pollution of the environment/Use packaging that is re-usable/recyclable.

NOTE: The industrial analysis tools (SWOT, PESTLE AND PORTERS' FIVE) and business strategies form part of the strategic management process.

2 Types of business strategies

2.1.1 Integration strategies

Forward integration

- The business combines business with or take over its distributors.
- Involves expansion of business activities to gain control over the direct distribution of the products.

Backward integration

- The business combines business with or take over its suppliers.
- The aim is to decrease the business's dependency on the supplier

Horizontal integration

- A business takes control of/ incorporates other businesses in the same industry/which produce/sell the same goods/services.
- The aim is to reduce the threat of competition /substitute products/services.

Intensive strategies

Market penetration

- New products penetrate an existing market at a low price, until it is well known to the customers and then the prices increases.
- It is a growth strategy where businesses focus on selling existing products to existing markets.
- Focuses on gaining a larger share of the market by reducing prices to increase sales/increasing advertising and promotion.

Market Development

- It is a growth strategy where businesses aim to sell its existing products in new markets.
- This strategy involves finding new markets and new ways to distribute product.

Product Development

- It is a growth strategy where businesses aim to introduce new products into existing markets/modifies an existing product.
- Businesses generate new ideas and develop new products/services

2.1.2 Advantages of intensive strategies

- Increase in sales/income and profitability.
- Regular sales to existing customers may increase.
- Gain customer loyalty through effective promotion campaigns.
- Improved service delivery may positively impact/increase sales.
- Eliminate competitors and dominate market prices.
- Decrease in price could influence customers to buy more products.
- Businesses can have more control over the prices of products/services.

- Enables the business to focus on markets/well researched quality products that satisfy the needs of consumers.
- Increased market share reduces the business's vulnerability to actions of competitors.

2.2 Diversification strategies

Concentric diversification

- The business adds a new product or service that is related to existing products and which will appeal to new customers.
- Occurs when a business wants to increase its product range and markets.

Horizontal diversification

- The business adds new products or services that are unrelated/ different to existing products, but which may appeal to existing/current customers.
- Occurs when a business acquires or merges with a business that is at the same production stage, but it may offer a different product

Conglomerate diversification

- The business adds new products or services that are unrelated to existing products which may appeal to new groups of customers.
- Occurs when a business wants to increase its product range and markets.
- Conglomerate diversification means that a business grows into new products, services and markets.

2.2.1 Advantages of diversification strategies

- Increase sales and business growth.
- Improves the business brand and image.
- Reduces the risk of relying only on one product.
- More products can be sold to existing customers and additional more new markets can be established.
- Businesses gain more technological capabilities through product modification
- Diversification into a number of industries or product line can help create a balance during economic fluctuations.
- Business produce more output using less inputs as one factory may be used to manufacture more products.

2.3 Types of defensive strategies

Divestiture/ Divestment

- The business disposes/sells some assets/divisions that are no longer profitable/ productive.
- Businesses may sell off divisions/product lines with slow growth potential.
- The business sells ownership by decreasing the number of shareholders.
- Unproductive assets are sold to pay off debts.
- Process used to withdraw its investment in another business (divesting).

Retrenchment

- Terminating the employment contracts of employees for operational reasons.
- Decreasing the number of product lines/Closing certain departments may result in some workers becoming redundant.

Liquidation

- All assets are sold to pay creditors due to a lack of capital/cash flow.
- Selling the entire business in order to pay all liabilities/close down the business.
- Companies in financial difficulty may apply for business rescue to avoid liquidation.
- Creditors may apply for forced liquidation in order to have their claims settled.

NOTE: You must be able to identify the types of business strategies from given scenarios/statement.

3 Steps in evaluating a strategy

- Examine the underlying basis of a business strategy.
- Look forward and backwards into the implementation process.
- Compare the expected results in order to determine the reasons for deviations and analyse these reasons.
- Take corrective action so that deviations may be corrected.
- Set specific dates for control and follow up.
- Draw up a table of the advantages and disadvantages of a strategy.
- Decide on the desired outcome.
- Consider the impact of the strategic implementation in the internal and external environments of the business.

NOTE: The steps can be in any order

CONTENT DETAILS FOR TEACHING, LEARNING AND ASSESSMENT PURPOSES

Learners must be able to:

- Outline/Explain/Discuss the functions of the JSE.
- Investigate a range of available business investment opportunities.
- Outline/Mention/Describe/Explain/Discuss the following factors that should be considered when making investment decisions:
 - Return of investment (ROI)
 - Risk
 - Investment term/period
 - Inflation rate
 - Taxation
 - Liquidity
 - Personal budget
 - Investment planning factors
 - Volatility/Fluctuations on investment markets
- Explain/Discuss the various types of investments opportunities e.g. fixed property, stokvels, managed portfolio, venture capital etc.
- Explain the risk factor of each type of investment opportunity.
- Explain/Discuss/Analyse/Evaluate (positives/advantages and/or negatives /disadvantages) of the following forms of investment:
 - Government/RSA retail savings bonds
 - Unit trusts
 - Shares
 - Fixed deposit
 - Identify the following types of shares from given scenarios/statement:
 - Ordinary shares
 - Preference shares
 - Bonus shares
 - Founders shares
- Name/Outline/Explain/Discuss types of preference shares.
- Outline/Mention the rights of ordinary and preference shareholders.
- Identify types of preference shares from given scenarios/statements.
- Differentiate/Distinguish between ordinary and preference shares.
- Define/Explain the meaning of debentures, dividends, capital gain, simple interest, compound interest.
- Differentiate/Distinguish between simple interest and compound interest.
- Calculate simple and compound interest from given scenarios.
- Recommend the best investment option based on the calculations.

Terms and definitions

Term	Definition
Investment	Investing/Saving money in order to yield better returns.
JSE/Johannesburg Security Exchange	Is a formal market, trading in shares, comprising of all the public companies that have been listed.
Share	It gives investors the opportunity to obtain a part ownership of a company.
Capital Market / securities market	It is the market for securities/shares where companies and the government can raise long-term funds.
Short term investment	An investment for a period shorter than one year.
Long term investment	An investment for a period for longer than one year.
Fixed rate	The rate of return stays the same for the period of time.
Accumulated	Interest earned over the investment period.

Functions of the JSE

- Gives

Simple interest	Calculated on the original/principal amount invested.
Compound interest	Calculated each period on the original/principal amount including all interest accumulated during past periods.
Risk	Refers to the chance that the invested amount may reduce in value/lost in total over a period of time, due to unforeseen circumstances.

opportunities to financial institutions such as insurance companies to invest their funds in shares.

- Serves as a barometer/indicator of economic conditions in South Africa.
- Keeps investors informed on share prices by publishing the share prices daily.
- Acts as a link between investors and public companies.
- Shares are valued and assessed by experts.
- Small investors are invited to take part in the economy of the country through the buying/selling of shares.
- Venture capital market is made available on the open market.
- Orderly market for securities serves as a disciplined market for securities.
- Encourages new investments.
- Mobilises the funds of insurance companies and other institutions.
- Raises primary capital.
- Regulates the market for dealing with shares.
- Plans, researches and advises on investment possibilities.
- Ensures that the market operates in a transparent manner.
- Provides protection for investors.
- Encourages short-term investment.
- Facilitates electronic trading of shares/STRATE.

2 Factors that should be considered when making investment decisions

- Return of investment (ROI)
- Risk
- Investment term/period
- Inflation rate
- Taxation
- Liquidity
- Personal budget
- Investment planning factors
- Volatility/Fluctuations on investment markets

2.1 Explanation of investment decisions

Return on investment

- Refers to income from the investment, namely interest/dividends/increased capital growth on the original amount invested.
- High risk investments yield higher returns.
- Generally, there will be a direct link between risk and return.
- The return should be expressed as net after-tax gains on the investment.
- Returns can be in the form of capital gains where the asset appreciates in value over time.

Risk

- Shares have low/medium risk over a longer investment period.
- Shares with higher risks have a greater potential for higher returns.
- Ordinary shares have the highest risk as the investor may lose the full/part of the investment when the company is dissolved/bankrupt/liquidated.

- Preference shareholders' risk is lower, as they have preferential claims on the assets of the liquidated company/may receive some compensation before ordinary shareholders.
- Share prices are linked to factors that investors cannot control, e.g. economic conditions/ operational success of the company, etc.
- Share prices are volatile/unstable/unpredictable/may increase/ decrease sharply within hours which contribute to the uncertainty of the value of an investment in shares on the short term.

Investment period

- This refers to the duration of the investment which may influence the return on investment.
- The longer the investment period the higher the returns.
- The investment period will depend on an investor's personal needs.
- Short term investments enable investors to access their money on a short period if needed.
- The investment period can be short, medium and/or long term depending on the investors' needs.

Inflation rate

- People are affected by a high inflation rate, because their money/purchasing power decreases.
- The return on investment should be higher than the inflation rate.
- Inflation has a positive effect on some investments such as property/shares where the income will increase as inflation increases.

Personal budgets

- Investors can determine the amount of surplus money that can be invested.
- Investors must budget for unforeseen costs.
- Budget should provide for contingency plans/investments/savings.

Liquidity

- An amount could be invested in a type of investment that can easily be converted to cash.
- It is used to describe the ease and speed with which investors can convert an investment into cash.
- Example: an investment in a savings account/unit trust will be easier to convert into cash than an investment in a fixed deposit which is usually deposited for a fixed period of time.

Taxation

- A good investment will yield good after-tax returns.
- Income tax implications must be considered in order to ensure a high net after-tax return.
- Tax rates are not necessarily the same for different investments.

Investment planning factors

- Investors should always consider the safest possible investment opportunities.
- Some investments offer a low income on invested capital, but it could be a safer investment than one that promises a higher income.
- Examine opportunities with a history of good return.
- Divide investments between various investment options.
- The method of calculating the interest/return on investment should be considered.

Volatility/Fluctuations on investment markets

- Fluctuation in national and international economic trends should be considered.
- The level of volatility will determine the amount of returns.

3 Types of investments opportunities and risk factors

Fixed Property

- Buying a house/piece of land is usually suitable as a long term investment only.
- Large fees/taxes are payable on these transactions, so property cannot be bought/sold every year.
- Return on property is earned in the form of rental/sales/capital gains at a higher price than what it was bought for (including the transfer costs and taxes).
- The location/size of the property may also influence the growth in value over time.

Risk

- Low risk over a long term.
- Risk may be determined by economic conditions and may influence the value of property.

Mutual funds/Stokvels

- It is an informal savings scheme to which a relatively small group of people contribute.
- Each member takes a turn to draw from the scheme/fund/stokvels for their own personal gain.
- No/Small return on investment, as contributions are distributed monthly to one of the members.
- It encourages people to save each month for a specific reason.
- Banking fees are shared by the members, resulting in low cost of investment per member.
- In times when it is hard to get bank loans, stokvel pay-outs may come in handy.
- A stokvel is usually managed by a trustworthy chairman/treasurer, who will be responsible for keeping records and managing the bank account.
- Members usually discuss how the money will be invested and agree on the risks they are willing to take.

Risk

- Schemers who claim to be running stokvels may actually be running illegal pyramid schemes and pay-outs may not be possible as cash has run out/members may lose their savings.
- Money in a savings account is a safe investment, but with low interest rates/the returns are low.

Managed portfolio

- An investor instructs a financial institution/bank/financial advisor to manage his/her various investments/assets in one portfolio.
- If the portfolio does not perform well/as expected, the portfolio/parts thereof may be changed with/without informing the investor.

Risk

- Risk is lower over a longer term/period.
- Investments are made in various sectors/companies, therefore the risk is spread and better managed by the portfolio manager.
- Money is usually invested in the capital market and unforeseen circumstances may impact negatively on the value of the portfolio on the short term/High risk over the short term.

Fixed deposit

- It is a very conservative method of investment at a fixed rate for a fixed period/at a financial institution/bank.
- Money cannot be withdrawn/added during the period of the deposit.
- Investors have to be certain that they will not access/need the money for the period of the deposit.

Risk

- Very low as the investor will receive what was promised.
- As the interest rate is usually fixed, the return will not be affected by market fluctuations.

32-day notice accounts/Call Deposits

- Money is invested at a fixed rate, although withdrawals may be made provided the bank is given 32 days' notice of the withdrawal.
- It earns more interest than a current/cheque/savings account, but less interest than a fixed deposit.

Risk

- Low risk, as investment plus interest will be paid out on the maturity date of investment.
- Interest is calculated on the daily balance, accelerating the value/return on the investment/lowering the risk.
- Interest rate may fluctuate with market conditions, increasing the risk.

Debentures

- It is issued to raise borrowed capital from the public.
- The lender/debenture holder agrees to lend money to the company on certain conditions for a certain period.
- Debenture holders are creditors, as the company is liable to repay the amount of the debentures.
- Most types of debentures can be traded on the JSE.
- Debenture holders receive annual interest payments based on the terms/ amount of debentures held.

Risk

- Debentures have a low risk as they need to be paid back.
- Companies are liable to repay the amount of the debenture plus interest, which decrease the risk for the investor.
- Investors may earn a steady income in the form of interest while preserving their principal amount.

Business Ventures/Venture capital

- Venture capital is given by an investor/businesses to start up/expand a business in return to have a share in the new/expanded business.
- Investor(s) should know the type of business/market/economic conditions before a business is bought/started.
- Buying a franchise/existing businesses will be successful, if the investors has done proper research/understand exactly what he/she is investing in.

Risk

- High risk for the investor(s), if research is not properly done.
- Inexperienced business owners that make wrong business decisions may experience big losses/closing down of an existing business.

Endowment/Life insurance policies/Retirement Annuities

- A monthly payment is paid to an insurance company with the expectancy of receiving a pre-determined amount on a date in the future.
- To provide for a future expenses/give peace of mind to the dependants of the insured.

Risk

- Low risk, as the insured amount will be paid out regardless of circumstances.
- Only the closing down/bankruptcy of the insurance company may result in losing the monthly contributions made up to the close down date.

Unit trusts

- It is a collection of investment options/methods made up of shares in different companies.
- The investments of a number of investors are pooled together in a unit trust fund, managed by a fund/portfolio manager/expert.
- Can be bought directly from the accredited service providers.

Risk

- Investment may be made in high and low risk shares, which spread the risk throughout the fund and lowers the risk for all the investors/fund members.
- Fund managers are able to manage the risk level of the fund on behalf of the investors.

Shares

- Companies sell/issue portions of its ownership to shareholders in the form of shares on the open market to obtain capital/funds to operate its core business.
- Shares give the holder one vote per share and the right to receive a dividend (portion of the profit).
- Companies do not have to repay share capital and is therefore risk avoiding capital.
- Shares of listed companies are traded on the JSE.
- Shares can be bought/sold through stock/share brokers to whom a brokerage/fee will be paid by the investor.
- Types of shares differ with respect to the claims to profits/dividends/voting rights/claims to assets should the company be liquidated.
- Ordinary shares can be divided into different types, e.g. blue chip/bonus/ growth/income/defensive shares.
- Ordinary shares have no special rights or restrictions and may yield/earn higher dividends, but also have higher risk.
- Types of preference shares are cumulative/non-cumulative/participating/non-participating/redeemable/non-redeemable/convertible/non-convertible shares.
- Preference shareholders mostly receive a fixed dividend and are paid before other shareholders.

Risk

- Shares have low/medium risk over a long term/investment period.
- Ordinary shares have the highest risk as the investor may lose the full or part of the investment when the company is dissolved/bankrupt/liquidated.
- Preference shareholders' risk is lower, as they have preferential claims on the assets of the liquidated company/may receive some compensation before ordinary shareholders.
- Share prices are linked to factors that investors cannot control, e.g. economic conditions, operational success of the company, etc.
- Share prices are volatile/unstable/unpredictable/share values may increase/ decrease sharply within hours which contribute to the uncertainty of the value of an investment on the short term.

RSA Retail Savings Bonds

- To encourage saving, the SA Government offers SA citizens the opportunity to invest in saving bonds.
- Two different types of bonds are available, i.e. fixed rate/inflation linked retail savings bonds.

- A market related interest rate is determined when investment is made and remains fixed for the whole term of the investment.
- Interest is earned half-yearly on 31 March and 30 September and paid out into the bond holder's/investor's bank account.
- It cannot be used as security to obtain loans, so creditors cannot have any claim on it.
- It can be inherited by a nominated beneficiary/when the investor dies.

Risk

- Risk is very low, as an investment is made in the government who cannot disappear/go bankrupt.
- It is a safe investment, as it cannot be sold on the open market/not exposed to market risks.

4 Forms of investments

- Government/RSA retail savings bonds
- Unit trusts
- Shares
- Fixed deposit

4.1 Impact of FOUR forms of investments

4.1.1 Impact of RSA Retail Savings Bonds/Government Retail Bonds

Positives/ Advantages

- Guaranteed returns, as interest rate is fixed for the whole investment period.
- Interest rates are market related and attract more investors.
- Interest can be received twice a year.
- Interest is usually higher than on fixed deposits.
- Retail bonds are listed on the capital bond markets/on the JSE.
- Low risk/Safe investment, as it is invested with the South African Government which cannot be liquidated
- No charges/costs/commissions payable on this type of investment.
- Investment may be easily accessible, as cash may be withdrawn after the first twelve months.
- It is an affordable type of investment for all levels of income earners including pensioners.
- Retail bonds are easily/conveniently obtained electronically/from any Post Office/directly from National Treasury.
- Investors younger than 18 years/Minors may invest with the help of a legal guardian, which encourages saving from a young age.

AND/OR

Negatives/ Disadvantages

- Retail bonds cannot be ceded to banks as security for obtaining loans.
- A minimum of R1 000 must be invested, which may be difficult for some small investors to accumulate.

- Retail bonds are not freely transferable amongst investors.
- Investors need to have valid SA identification/should be older than 18 years which may discourage foreigners/young people to invest.
- Penalties are charged for early withdrawals, if the savings is less than 12 months old.

4.1.2 Impact of unit trusts

Positives/ Advantages

- Managed by a fund manager who buys shares on the stock exchange/JSE.
- Easy to cash in when an investor needs money.
- A small amount can be invested per month.
- Generally beats inflation on the medium/long term.
- Safe investments, as it is managed according to rules and regulations.
- The investor has a variety to choose from/a wider range of shares from lower to higher degrees of risk.
- Easy to invest in, as investors simply complete a few relevant forms or invest online.
- Fluctuations in unit trust rates of return are often not so severe because of diversity of the investment fund.
- Offer competitive returns in the form of capital growth and dividend distribution.
- Fund managers are knowledgeable/experts/reliable/trustworthy as they are required to be accredited to sell unit trusts.

AND/ OR

Negatives/ Disadvantages

- Share price may fluctuate
- Unit Trusts are not allowed to borrow, therefore reducing potential returns.
- Not good for people who want to invest for a short period
- Not good for people who want to avoid risks at all costs.
- If blue chip companies do not continue on their growth path, the growth of unit trusts will also be affected and will not render the expected returns.
- Bid/Ask prices exist with the price that you can buy a unit for usually higher than the price you can sell it for - making investment less liquid.

4.1.3 Impact of shares/Ordinary shares

Positives/ Advantages

- Can be freely transferred/traded on the JSE.
- Shareholders' liability to the debt of the company is limited to what was invested/Shareholders have limited liability for company debts
- Shareholders have voting rights at the annual general meeting (AGM).
- Investing in shares provides protection against inflation.
- Investing in shares can provide solid returns at retirement age.
- Rate of return on investment (ROI) is linked to the performance of the company.
- Ordinary shares are usually cheaper than preference shares on the open market
- Holding a higher number of shares may result in higher proportional dividend pay-outs.

AND/OR

Negatives/ Disadvantages

- Shareholders may receive less dividends/no dividends when company profits are low.
- Companies have no legal obligation to pay dividends to shareholders.
- Risk may be high, as investment may be lost when companies are liquidated.
- Dividends declared may be determined by the management/directors of the company/business.

4.1.4 Impact of fixed deposits

Positives/ Advantages

- Interest is earned at a fixed rate regardless of changes in the economic climate.
- The period of investment can be over a short/medium/long term.
- Investors can choose the investment period that suits them.
- Principal amount plus interest earned is paid out on the maturity date.
- Ensures financial discipline as investors cannot withdraw their funds before the maturity date.
- Investors earn a better return on investment than on an ordinary savings account.
- The higher the principal amount/the longer the investment period, the higher the interest rate offered by a financial institution.

AND/OR

Negatives/ Disadvantages

- The investor cannot withdraw their funds before the maturity date.
- Low returns compared to other investments.
- May not outperform the effect of inflation over long term.

4.2 TYPES OF SHARES

4.2.1 Ordinary shares

- Ordinary shares only receive dividends when profit is made.
- Normally the higher the net profit, the higher the dividend.
- Shareholders are the last to be paid, if the company is declared bankrupt liquidated.
- Dividends vary from year to year according to profits made and are determined by the company/board of directors.
- Shareholders have a right to vote at the Annual General Meeting/AGM.

Rights of ordinary shareholders

Shareholders have a right to:

- vote at the Annual General Meeting.
- attend the Annual General Meeting to learn about the company's performance.
- receive interim and annual reports.
- claim on company assets in the event of bankruptcy after all other creditors and preferential shareholders have been paid

4.2.2 Preference shares

- Some of these types of shares receive dividends regardless of whether a profit is made.
- A fixed rate of return is paid on this type of shares.
- Shareholders have a preferred claim on company assets in the event of bankruptcy/liquidation.
- These shares enjoy preferential rights to dividends/repayment over ordinary shares.
- Dividends are payable according to the type of preference share.
- Voting rights are restricted to particular circumstances/resolutions.
- Non-cumulative preference shareholders will not receive any outstanding dividends from previous years.
- Cumulative preference shareholders will receive outstanding dividends from previous years.

- Redeemable preference shares can be redeemed/bought back at the option of the issuing company on a pre-determined future date.
- Non-redeemable preference shares are only bought back when the company closes down for reasons other than bankruptcy.
- Convertible preference shares are converted to ordinary shares after a fixed period/on the date specified when the preference shares were issued.
- Non-convertible preference shares will not be converted into ordinary shares.

Rights of preference shareholders

Shareholders have right to:

- Receive dividends regardless of how much profits are made.
- Receive a fixed rate of return/dividend.
- They are paid first/enjoy preferential rights to dividends.
- They have a preferred claim on company assets in the event of bankruptcy/ liquidation of the company.
- Receive interim and annual reports.
- They only have voting rights at the AGM under particular circumstances/for certain resolutions.
- Cumulative shareholders must receive outstanding/accrued dividends from previous years.
- Participating preference shareholders have the right to share in surplus profits.

NOTE: you must know the rights of ordinary and preference shares.

4.2.3 Founders' shares

- Issued to the founders and incorporators/promoters of the company.
- They receive dividends after all other shareholders were paid.

4.2.4 Bonus shares

- Payment in the form of shares to shareholders.
- Issued as compensation for unpaid dividends.
- Shareholders will own more shares and collect more dividends in the future.
- Shareholders receive these shares without being required to pay for them.

NOTE: You must be able to identify the above mentioned types of shares from given scenarios/statement.

4.3 Types of preference shares

Participating preference shares

Shareholders:

- are guaranteed minimum fixed dividends.
- are entitled to share in any surplus company profits.
- receive higher dividends when the company performs well.
- have preferential rights over ordinary shares on repayment when the company closes down.

Non-participating preference shares/Ordinary preference shares

Shareholders:

- receive an amount equal to the initial investment plus accrued and unpaid dividends upon liquidation.
- do not have right to participate in profits after equity shareholders have been paid a dividend.
- will not get extra dividend in case of surplus profits.
- entitled to receive only a fixed rate of dividend every year.

Cumulative preference shares

- Shareholders are compensated for past dividends that were not paid out when profits were too low to declare dividends/Receive dividends not previously paid out.

Non-cumulative preference shares

- Shareholders are not compensated for past dividends that were not paid out when profits were low.

Redeemable preference shares

- Shares can be redeemed/ bought back at the option of the issuing company, either at a fixed price on a specified date/over a certain period of time.

Non-redeemable preference shares

- Shares are only bought back when the company closes down for reasons other than bankruptcy.

Convertible preference shares

- Shares can be converted into a predetermined number of ordinary shares on the date specified when the preference shares were issued.

Non-convertible preference shares

- Shares cannot be converted into ordinary shares.

NOTE: You must be able to identify the above mentioned types of preference shares from given scenarios/statements.

5 Investments concepts

- Debentures
- Dividends
- Capital gain
- Simple interest
- Compound interest.

5.1 Description of investment concepts

5.1.1 Debentures

- It is issued to raise borrowed capital from the public.
- The lender/debenture holder agrees to lend money to the company on certain conditions for a certain period.
- Debenture holders are creditors, as the company is liable to repay the amount of the debentures.
- Most types of debentures can be traded on the JSE.
- Debenture holders receive annual interest payments based on the terms/ amount of debentures held.

5.1.2 Dividends

- The return on an investment in shares which is paid regularly by a company to its shareholders.
- Dividends are decided and managed by the company's board of directors and approved by the shareholders through their voting rights.

5.1.3 Capital gain

- The return on property/fixed assets/investments.
- Capital gains tax is payable when you sell an asset that has increased in value since you bought it

5.1.4 Simple interest

- The interest is calculated on the original/principal amount invested.
- The principal amount remains the same over the entire period of investment.
- The interest is kept separate unless it is reinvested
- Yields less return on investment.

5.1.5 Compound interest

- Interest is calculated in every period on original/principal amount plus interest.
- Interest is added to the original/principal amount and interest is earned on interest for each defined period.
- As interest is added to the investment, the capital increases.

6 Distinction between compound and simple interest

COMPOUND INTEREST	SIMPLE INTEREST
Interest earned on original amount invested, as well as interest earned in previous period(s).	Interest earned on the original amount and not on the interest accrued.
The principal amount grows with the addition of interest to it.	The principal amount remains the same over the entire period of investment.
Interest is calculated on the higher principal amount and again added to it.	The interest is kept separate unless it is reinvested.
Yields high return on investment.	Yields less return on investment.
Total amount of interest earned on investment is high.	Total amount of interest earned on investment is less.

7 Examples of how to calculate the simple and compound interest

Ronnete wants to invest R30 000 in a fixed deposit for two years. She approached two banks. Saints Bank offered her 12% simple interest per annum and Caprica Bank 12% compounded interest per annum.

- Calculate the interest amount Ronnete will receive after two years if she invests with Saints Bank.
- Calculate the interest amount Ronnete will receive after two years if she invests with Caprica Bank.
- Recommend the best investment option for Ronnete. Motivate your answer.

Calculation of simple interest of the above scenario

FORMULA: Interest = $P \times R \times T$

$$R30\ 000 \times 12\% \times 2 \text{ years} = R7200$$

Calculation of Compound interest of the above scenario

Option 1

$$\text{Year 1: } R30\ 000 \times 12\% = R3600$$

$$\text{Year 2: } R33\ 600 \times 12\% = R4032$$

$$\text{Total interest} = R7632$$

OR

Option 2

FORMULA: $P \times (1 + r)^n$

$$R30\ 000 \times (1 + 12/100)^2$$

$$R30\ 000 \times (1.12)^2 = R37\ 632$$

$$\text{Total interest} = R37\ 632 - R30\ 000$$

$$= R7632$$

8 Recommendation on the best investment option based on the calculations

Compound interest is the best option based on the calculations above.

Motivation

Compound interest yields a higher interest of R7 632 than the simple interest/ Ronnete earns interest on interest accrued.

CONTENT DETAILS FOR TEACHING, LEARNING AND ASSESSMENT PURPOSES

Learners must be able to:

- **Define/Elaborate on the meaning of insurance**

NON-COMPULSORY INSURANCE

- Explain/Elaborate on the meaning of non-compulsory insurance
- Explain/Elaborate on the meaning of the following insurance concepts:
 - Over-insurance
 - Under-insurance
 - Average clause
 - Reinstatement
- Explain the differences between over and under insurance
- Differentiate/Distinguish between insurance and assurance. Give examples.
- Name/Give examples of short term and long term insurance.
- Name/Mention/Explain/ Discuss the following principles of insurance:
 - Indemnification/Indemnity
 - Security/Certainty
 - Utmost good faith
 - Insurable interest
- Apply the average clause to calculate the compensation in the case of under-insurance.
- Discuss/Explain the advantages/importance of insurance.
- Explain the meaning of insurable and non-insurable risks.
- Outline/Mention/Give examples of insurable and non-insurable risks

COMPULSORY INSURANCE

- Explain/Elaborate on the meaning of compulsory insurance.
- Discuss/Explain types of compulsory insurance e.g. Unemployment Insurance Fund (UIF), Road Accident Fund (RAF)/Road Accident Benefit Scheme (RABS)/ Compensation for Occupational Injuries and Diseases Fund (COIDA).
- Explain the types of benefits paid out by the UIF
- Identify types of compulsory insurance from given scenarios/statements.
- Explain/Differentiate/Distinguish between compulsory and non- compulsory insurance and give examples.
- Keep abreast of the changes in legislation from time to time e.g. the RAF is currently changing to the RABS (Road Accident Beneficiary Scheme).

TERMS AND DEFINITIONS

Term	Definition
Insurance	It is a contract between a person/business/insured requiring insurance cover and the insurance company/insurer bearing the financial risk.
Insurance contract	An agreement whereby the insurer undertakes to indemnify the insured in the event of a specified loss in exchange for a premium.
Insurer	An insurance company that will take over specified risks
Insured	Individual/Business that takes out insurance coverage.
Indemnify	To compensate, protect or re-pay the insured in the event of a loss or damage.
Insured value	The amount of money agreed to by the insured and insurer to insure assets/life of a person when the contract is signed.
Book value	The purchase price of an asset , less depreciation
Risk	Possibility of losses/damages
Premium	The payment made by insured to be covered in the event of losses/damages.
Life insurance	It is a long term insurance and is taken out on the life of a human being and cover for the loss of life.
Public liability	Damage caused by business operations to the public
Insurable interest	Is expressed in financial terms and is the interest that the insured stand to lose if there are losses or damages.
Unemployment Insurance Fund (UIF)	This fund provides benefits to workers who have been working and are now unemployed for reasons such as retrenchment.
Road Accident Fund (RAF) Road Accident Benefit Scheme (RABS)	This fund pays compensation when a person is disabled/injured in a road accident and to dependents of the individual if killed in a road accident.
Compensation for Occupational Injuries and Diseases (COIDA)	This fund compensates workers financially for disability that may arise as a result of accidents while performing duties in the workplace.

1 Meaning of insurance

- Insurance refers to cover for a possible event that may cause a specified loss/ damage.
- An agreement whereby the insurer undertakes to indemnify the insured in the event of a specified loss/damage.
- The insured has to pay a premium for specified losses/damages covered.
- A contract between a person/business/insured requiring insurance cover and the insurance company/insurer bearing the financial risk.

2 NON-COMPULSORY INSURANCE

2.1 The meaning of non-compulsory insurance

- Non-compulsory insurance is voluntary/the insured has a choice whether to enter into an insurance contract.
- It is not required by law, but it can provide protection for businesses and individuals.
- It is taken out in order to transfer the risk of something happening onto the insurance company.
- These risks include theft, damaged cars, damaged buildings/ premises/injuries on premises etc.
- Non-compulsory can be divided into:
 - Short-term insurance e.g. fire, theft etc.
 - Long-term insurance e.g. retirement/death etc.

2.2 Meaning of insurance concepts

2.2.1 Over insurance

- Over insurance is when the item is insured for more than the actual market value.
- Businesses will not receive a pay-out larger than the value of the loss at market value.
- This means that the extra money paid for the premiums will not be paid out to the insurer if there is a claim for a loss.

2.2.2 Under-insurance

- Occurs when property or assets are insured for their full market value.
- The property/asset is insured for less than the current/actual value of the property/assets
- If a business is insured for an amount that is under the actual market value of goods or service, the insured/business will only be paid out for the amount that the goods/assets are insured for.
- The insurer usually applies the average clause to calculate the amount of money that must be compensated to the insured if the goods/assets are under insured.

2.2.3 Average clause

- A stipulation set by the insurer which is applicable when property/goods is under insured/insured for less than its market value.
- The insurer will pay for insured loss/damages in proportion to the insured value.
- This means that the insured is responsible for a part of the risk that is not insured.

NOTE: The average clause applies when goods/assets are under insured.

Formula for calculating the average clause

- The insured amount is divided by the market value of the insured item and multiplied by the total value/amount of the damages/loss.
- Insurance companies apply the following formula to determine the amount to be paid out to the insured:

FORMULA: (Amount insured ÷ Market value) x damages

$$\frac{\text{Amount insured}}{\text{Value of insured item}} \times \text{Amount of damages/loss}$$

Example of calculating the average clause

Peter owns a thatched house valued at R100000. He insured his house with Pro-Cover Insurers for R800000. A fire in the kitchen caused damages of R30000.

- 1 Calculate the amount that Pro-Cover Insurers will pay Peter to cover damages. Show ALL calculations.
- 2 Explain to Peter the reason why he did not qualify for the full amount of damages sustained.

$$\frac{R800000}{R1000000} \times R30000$$

=R24000

Reasons for not qualifying for the full amount of damages

- Peter insured his house for less (R800 000) than the market value (R1 000 000).
- He was underinsured so the average clause had to be activated.
- He will only receive R24 000 for damages, and not the full amount of the claim (R30 000).

2.2.4 Reinstatement

- It is a stipulation whereby the insurer may replace lost/damaged property/goods instead of reimbursing the insured.
- This stipulation is applicable when property/goods are over insured.
- The re-insatement value will not be higher than the market value of the loss.
- Insured is returned to almost the same financial position as before the loss occurred.

Example: A business property that has been insured for R300 000 but the market value for the property is R200 000. If it is destroyed by fire/storm etc, the insurer will rebuild the property instead of paying cash.

NOTE: 1 Reinstatement applies when goods/assets are over-insured.

2 There is no formula for calculating over insurance. Therefore you will not be asked to calculate over insurance.

3 Differences between over and under-insurance

OVER-INSURANCE	UNDER-INSURANCE
Property/Assets that are insured for more than their value.	Property/Assets that are not insured for their full market value.
The insurer can choose to reinstate the insured.	The insurer will implement the average clause to determine the amount that will be paid.
Businesses will not receive a pay-out larger than the value of the loss at market value	Businesses will only be paid out for the amount that the goods/assets are insured for.

4 Differences between insurance and assurance

INSURANCE	ASSURANCE
Based on the principle of indemnity	Based on the principle of security/certainty
The insured transfers the cost of potential loss to the insurer at a premium	The insurer undertakes to pay an agreed sum of money after a certain period has expired/on the death of the insured person, whichever occurred first

It covers a specified event that may occur	Specified event is certainty, but the time of the event is uncertain
Applicable to short term insurance	Applicable to long term insurance
Examples	Examples
Property insurance/money in transit/theft/burglary/fire	Life insurance/endowment policies/retirement annuities,

NOTE: Both insurance and assurance form part of non-compulsory insurance

5 Examples of short term and long term insurance

SHORT TERM INSURANCE	LONG TERM INSURANCE
<ul style="list-style-type: none"> • Property insurance • Money in transit • Theft • Burglary • Fire 	<ul style="list-style-type: none"> • Endowment policy • Life cover policy/Life insurance • Retirement annuity/Pension fund/Provident fund • Disability policy • Trauma insurance • Funeral insurance • Health insurance/Medical aid

6 Principles of insurance

6.1 Indemnification/Indemnity

- Usually applies to short term insurance, as the insured is compensated for specified/proven harm/loss.
- Insurer agrees to compensate the insured for damages/losses specified in the insurance contract, in return for premiums paid by the insured to the insurer.
- Protects the insured against the specified event that may occur.
- Pay-outs from insurance companies/insurer will only be made; if there is proof that the specified event took place/if the insured can prove the amount of the loss/ damage.
- The amount of indemnification/compensation is limited to the amount of provable loss/damage, even if the amount in the policy/insurance contract is higher.
- The insured must be placed in the same position as before the occurrence of the loss/damage/The insured may not profit from insurance.

6.2 Security/Certainty

- Applies to long-term insurance where the insurer undertakes to pay out an agreed upon amount in the event of loss of life.
- A predetermined amount will be paid out when the insured reaches a pre-determined age/or gets injured due to a predetermined event.
- Aims to provide financial security to the insured at retirement/the dependents of the deceased.

6.3 Utmost good faith

- Insured has to be honest in supplying details when entering in an insurance contract.
- Both parties/insurer and insured must disclose all relevant facts.
- Insured must disclose everything that may affect the extent of the risk.
- Details/Information supplied when claiming should be accurate/true.

6.4 Insurable interest

- Insured must prove that he/she will suffer a financial loss if the insured object is damaged/lost/ceases to exist.
- An insurable interest must be expressed in financial terms.
- Insured must have a legal relationship with the insured object in the contract.

NOTE: The principles of insurance form the basis of an insurance contract between the insurer and the insured.

7 Advantages/Importance of insurance for businesses

- Transfers the risk from the business/insured to an insurance company/insurer.
- Transfer of risk is subject to the terms and conditions of the insurance contract.
- Protects businesses against dishonest employees.
- Protects businesses against losses due to death of a debtor.
- Protects the business against theft/loss of stock and/or damages caused by natural disasters such as floods, storm damage, etc.
- Protects businesses from claims made by members of the public for damages that the business is responsible for.
- Businesses will be compensated for insurable losses, e.g. destruction of property through fire.
- Businesses assets, e.g. vehicles/equipment/buildings need to be insured against damage and/or theft.
- Businesses are protected against the loss of earnings, e.g. strikes by employees which result in losses worth millions.
- Life insurance can be taken on the life of partners in a partnership to prevent unexpected loss of capital.
- Should the services of key personnel be lost due to accidents/death, the proceeds of an insurance policy can be paid out to the business/beneficiaries.
- Replacement costs for damaged machinery/equipment are very high, therefore insurance can reduce/cover such costs.

8 Meaning of insurable and non-insurable risks

8.1 Meaning of insurable risks

- These risks are insured by insurance companies.
- Insurance companies decide on the likelihood of an event and then decide if they want to insure the risk

8.2 Meaning of non-insurable risks

- These risks are not insured by insurance companies as insurance cost/risks are too high/remains the responsibility of the business.
- The insurance company cannot calculate the profitability of the risk and therefore they cannot work out a premium that the business must pay.

8.3 Examples of insurable and non- insurable risks

INSURABLE RISKS	NON-INSURABLE RISKS
Examples <ul style="list-style-type: none"> • Theft • Fidelity insurance • Burglary • Money in transit • Fire • Natural disaster/Storms/Wind/Rain/Hail • Damage to/Loss of assets/vehicles/equipment/buildings/premises • Injuries on premises 	Examples <ul style="list-style-type: none"> • Nuclear weapons/war • Changes in fashion • Improvement/changes in technology • Irrecoverable debts • Financial loss due to bad management • Possible failure of a business • Shoplifting during business hours • Loss of income if stock is not received in time/Time that elapses between the ordering and delivery of goods.

9 Compulsory insurance

9.1 Meaning of compulsory insurance

- Compulsory insurance is insurance that is required by law before /businesses/individuals may engage in certain activities.
- Compulsory insurance is intended to safeguard the welfare of everyone concerned.
- It is regulated by Government and does not require insurance contracts/brokers.
- Payment is in the form of a levy/contribution paid into a common fund from which benefits may be claimed under certain conditions

9.2 Types of compulsory insurance

- Unemployment Insurance Fund (UIF)
- Road Accident Fund (RAF)/Road Accident Benefit Scheme (RABS)
- Compensation Fund/Compensation for Occupational Injuries and Diseases/COIDA

NOTE: Do not confuse the examples of compulsory insurance with the examples of long term insurance.

9.2.1 Unemployment Insurance Fund (UIF)

- The UIF provides benefits to workers who have been working and become unemployed for various reasons.
- Employees contribute 1% of their basic wage to UIF.
- Businesses contribute 1% of basic wages towards UIF, therefore reducing the expense of providing UIF benefits themselves.
- The contribution of businesses towards UIF increases the amount paid out to employees that become unemployed.
- All employees who work at least 24 hours per month are required to be registered for UIF/contribute to the UIF.
- It is an affordable contribution that makes it possible for businesses to appoint substitute workers in some instances.
- The business cannot be held responsible for unemployment cover as the UIF pays out to contributors directly/dependants of deceased contributors.
- Businesses are compelled to register their employees with the fund and to pay contributions to the fund.

NOTE: You will be not be awarded marks writing “workman’s compensation fund” instead of UIF.

Benefits of UIF

Unemployment benefits

- Employees, who become unemployed/retrenched due to restructuring/an expired contract, may claim within six months after becoming unemployed.
- Unemployed employees may only claim, if they contributed to UIF.
- Unemployed employees enjoy these benefits until the allocated funds are exhausted.
- If a worker voluntarily terminates his/her contract, he/she may not claim.
- No tax is payable on unemployment benefits.

Illness benefits/ Sickness/ Disability

- Employees may receive these benefits if they are unable to work for more than 14 days without receiving a salary/part of the salary.
- Employees may not claim these benefits if they refuse medical treatment.

Maternity benefits

- Pregnant employees receive these benefits for up to 4 consecutive months.
- If an employee had a miscarriage, she can claim for up to six weeks/42 days.

Adoption benefits

- Employees may receive these benefits if they adopt a child younger than two years.
- Employees who take unpaid leave/may receive part of their salary while caring for the child at home.
- Only one parent/partner may claim.

Dependants' benefits

- Dependants may apply for these benefits if the breadwinner, who has contributed to UIF dies.
- The spouse of the deceased may claim, whether he/she is employed or not.

NOTE: Do not confuse the benefits of UIF with types of leaves

9.2.2 Road Accident Fund (RAF)/Road Accident Benefit Scheme (RABS)

- RAF/RABS insures road-users against the negligence of other road users.
- The RAF/RABS provides compulsory cover for all road users in South Africa, which include South African businesses.
- Drivers of business vehicles are indemnified against claims by persons injured in vehicle accidents.
- RAF/RABS is funded by a levy on the sale of fuel/diesel/petrol.
- The amount that can be claimed for loss of income is limited by legislation.
- The next of kin of workers/ breadwinners who are injured/killed in road accidents, may claim directly from RAF/RABS.
- Injured parties and negligent drivers are both covered by RAF/RABS.
- The injured party will be compensated, irrespective of whether the negligent driver is rich/poor/insured/uninsured.
- RABS aims to provide a benefit scheme that is reasonable/equitable/affordable/ sustainable, etc.
- RABS aims to simplify/speed up the claims process as victims of road accidents no longer have to prove who caused the accident.
- RABS enables road accident victims speedy access to medical care as delays due to the investigation into accidents has been minimised.

NOTE: You will be awarded a mark if you write the word “third party” instead of RAF.

9.1.3 Compensation Fund/Compensation for Occupational Injuries and Diseases/COIDA

- The fund covers occupational diseases and workplace injuries.
- Compensates employees for injuries and diseases incurred at work.
- Compensation paid is determined by the degree of disablement.
- The contribution payable is reviewed every few years according to the risk associated with that type of work.
- All employers are obliged to register with the compensation fund so that employees may be compensated for accidents and diseases sustained in the workplace.
- The fund covers employers for any legal claim that workers may bring against them.
- Employers are required to report all accidents within 7 days and occupational diseases within 14 days to the Compensation Commissioner.
- Employers are responsible for contributing towards the fund and may not claim money back from employees/deduct contributions from wages.
- In the event of the death of an employee as a result of a work related accident/ disease, his/her dependant(s) will receive financial support.
- Employees do not have to contribute towards this fund.
- Employees receive medical assistance provided there is no other party/medical fund involved.

10 Differences between compulsory and non-compulsory insurance

Compulsory insurance	Non-compulsory insurance
Required by Law/there are legal obligations for it to be taken out and paid for.	Is voluntary/the insured has a choice whether to enter into an insurance contract.
It is regulated by Government and does not require insurance contracts/brokers	Insured will enter into a legal insurance contract with the insurer, who may be represented by an insurance broker.

Payment is in the form of a levy/contribution paid into a common fund from which benefits may be claimed under certain conditions.	Monthly/Annual payments/premiums that must be paid in order to enjoy cover for a nominated risk.
Examples UIF, RAF and Compensation Fund/COIDA	Examples Short term insurance/Multi-peril insurance (theft, fire, etc.) Long term insurance/Life insurance

TEAM PERFORMANCE ASSESSMENT

1 Criteria for successful team performance

1.1 Interpersonal attitudes and behaviour

- Members have a positive attitude of support and motivation towards each other.
- Good/Sound interpersonal relationships will ensure job satisfaction/increase productivity of the team.
- Members are committed/passionate towards achieving a common goal/ objectives.
- Team leader acknowledges/gives credit to members for positive contributions.

1.2 Shared values/ Mutual trust and support

- Shows loyalty/respect/trust towards team members despite differences.
- Shows respect for the knowledge/skills of other members.
- Perform team tasks with integrity/pursuing responsibility/meeting team deadlines with necessary commitment to team goals.

1.3 Communication

- A clear set of processes/procedures for team work ensures that every team member understands his/her role.
- Efficient/Good communication between team members may result in quick decisions.
- Quality feedback improves the morale of the team.
- Open/Honest discussions lead to effective solutions of problems.
- Continuous review of team progress ensures that team members can rectify mistakes/act pro-actively to ensure that goals/targets are reached.

1.4 Co-operation/ Collaboration

- Clearly defined realistic goals are set, so that all members know exactly what is to be accomplished.
- All members take part in decision making
- Willingness to co-operate as a unit to achieve team objectives.
- Co-operate with management to achieve team/business objectives.
- Agree on methods/ways to get the job done effectively without wasting time on conflict resolution.
- A balanced composition of skills/knowledge/experience/expertise ensures that teams achieve their objectives.

NOTE: You must be able to identify the above mentioned criteria for successful team performance from given statements/scenarios

2 Characteristics of successful team performance

- Successful teams share a common goal as team members are part of the process of setting goals for the group.
- There is a climate of respect/trust and honesty
- Share a set of team values and implement group decisions.
- Successful teams have sound intra-team relations
- Teams value the contributions of individual members and reach consensus on differences.
- Team members enjoy open communication and deal with items of conflict immediately.
- Teams are accountable and members know the time frame for achieving their goals.
- Teams pay attention to the needs of the individual team members.

- Creates an environment where team members are given opportunities to develop so that team members grow and learn from the experience of working in a team.
- Regular reviews of team processes and progress may detect/solve problems sooner.
- Balance the necessary skills/knowledge/experience/expertise to achieve the objectives.

3 The stages of team development

- Forming
- Storming
- Norming
- Performing
- Adjourning/Mourning

DESCRIPTION OF EACH STAGE OF TEAM DEVELOPMENT

3.1 Forming stage

- Individuals gather information and impressions about each other and the scope of the task and how to approach it.
- Teams are comfortable and polite with each other during this stage.
- People focus on being busy with routines, such as team organisation e.g. who does what, when to meet each other, etc.

3.2 Storming

- Teams go through a period of unease/conflict after formation.
- Different ideas from team members will compete for consideration.
- Team members open up to each other and confront each other's ideas/ perspectives.
- Tension/struggle/arguments occur and upset the team members/there may be power struggles for the position of team leader.
- In some instances storming can be resolved quickly; In others, the team never leaves this stage.
- Many teams fail during this stage as they are not focused on their task.
- This phase can become destructive for the team/will negatively impact on team performance, if allowed to get out of control.
- This stage is necessary/ important for the growth of the team.
- Some team members tolerate each other to survive this stage.

3.3 Norming/Settling/reconciliation

- Team members come to an agreement and reach consensus.
- Roles and responsibilities are clear and accepted.
- Processes/working style and respect develop amongst members.
- Team members have the ambition to work for the success of the team.
- Conflict may occur, but commitment and unity are strong.

3.4 Performing stage/Working as a team towards a goal

- Team members are aware of strategies and aims of the team.
- They have direction without interference from the leader.
- Processes and structures are set.
- Leaders delegate and oversee the processes and procedures.
- All members are now competent, autonomous and able to handle the decision-making process without supervision.
- Differences among members are appreciated and used to enhance the team's performance.

3.5 Adjourning/Mourning stage

- The focus is on the completion of the task/ending the project.
- Breaking up the team may be traumatic as team members may find it difficult to perform as individuals once again.
- All tasks need to be completed before the team finally dissolves.

NOTE: You must be able to identify the above mentioned stages of team development from given scenarios/statement.

4 Importance of team dynamic theories in improving team performance

- Team dynamic theories explain how effective teams work/operate.
- Businesses are able to allocate tasks according to the roles of team members.
- Team members can maximise performance as tasks are allocated according to their abilities/skills/attributes/personalities.
- Team members with similar strengths may compete for team tasks/responsibilities that best suit their abilities/competencies.
- Theories assist team leaders to understand the personality types of team members so that tasks are assigned more effectively.
- Conflict may be minimised when team members perform different roles.

5 CONFLICT RESOLUTION

5.1 Causes of conflict in the workplace

- Differences in backgrounds/cultures/values/beliefs/language
- Limited business resources
- Different goals/objectives for group/individuals
- Personality differences between group/individuals
- Different opinions
- Unfair workload
- Ill-managed stress
- Unrealistic expectations
- Poor organisation/leadership/administrative procedures and systems
- Confusion about scheduling/deadlines
- Ignoring rules/procedures
- Misconduct/Unacceptable behaviour
- High/Intense competition/Competitiveness
- Poor communication
- Unclear responsibilities
- Distracted by personal objectives
- Constant changes in the workplace
- Unfair treatment of workers/Favouritism by management/Discrimination
- Lack of trust amongst workers

NOTE: You must be able to identify causes of conflict from given scenarios/statement

5.2 Explanation of causes of conflict in the workplace

- Lack of proper communication between management and workers.
- Ignoring rules/procedures may result in disagreements and conflict.
- Management and/or workers may have different personalities/ backgrounds.
- Different values/levels of knowledge/skills/experience of managers/workers.
- Little/no co-operation between internal and/or external parties/stakeholders.
- Lack of recognition for good work, e.g. a manager may not show appreciation for extra hours worked to meet deadlines.
- Lack of employee development may increase frustration levels as workers may repeat errors due to a lack of knowledge/skills.
- Unfair disciplinary procedures, e.g. favouritism/nepotism.

- Little/no support from management with regards to supplying the necessary resources and providing guidelines.
- Leadership styles used, e.g. autocratic managers may not consider worker inputs.
- Unrealistic deadlines/Heavy workloads lead to stress resulting in conflict.
- Lack of agreement on mutual matters, e.g. remuneration/working hours.
- Unhealthy competition/Inter-team rivalry may cause workers to lose focus on team targets.
- Lack of commitment/Distracted by personal objectives which may lead to an inability to meet pre-set targets.
- Constant changes may cause instability
- Lack of clarity regarding employees' roles and responsibilities.

5.3 Handling conflict in the workplace/Conflict resolution steps/techniques

- Acknowledge that there is conflict in the workplace.
- Identify the cause of the conflict.
- Arrange pre-negotiations where workers/complainants will be allowed to state their case/views separately.
- Arrange time and place for negotiations where all employees involved are present.
- Arrange a meeting between conflicting employers/employees.
- Make intentions for intervention clear so that parties involved may feel at ease.
- Each party has the opportunity to express his/her own opinions/feelings
- Conflicting parties may recognise that their views are different during the meeting.
- Analyse/Evaluate the cause (s) of conflict by breaking it down into different parts.
- Blame shifting should be avoided and a joint effort should be made.
- Direct conflicting parties towards finding/focusing on solutions.
- Devise/Brainstorm possible ways of resolving the conflict.
- Conflicting parties agree on criteria to evaluate the alternatives.
- Select and implement the best solution.
- Provide opportunities for parties to agree on the best solution.
- Evaluate/Follow up on the implementation of the solution(s).
- Monitor progress to ensure that the conflict has been resolved.
- Source experts on handling conflict from outside the business.

6 DEALING WITH GRIEVANCES AND DIFFICULT PEOPLE/PERSONALITIES

6.1 Differences between grievance and conflict

GRIEVANCE	CONFLICT
When an employee is unhappy/ has a problem/complaint in the workplace.	Clash of opinions/ideas/view points in the workplace.
It is when an individual/group has a work related issue.	Disagreement between two or more parties in the workplace.
Examples that can cause a grievance: Discrimination, unfair treatment, poor working conditions.	Examples that can cause conflict: A lack of trust/miscommunication/ personality clashes/different values.

6.2 Correct procedures to deal with grievances

- An aggrieved employee must verbally report the incident/grievance to his/her supervisor/manager, who needs to resolve the issue within 3 to 5 working days.
- Should the employee and supervisor not be able to resolve the grievance, the employee may take it to the next level of management.
- The employee may move to a more formal process where the grievance must be lodged in writing/completes a grievance form.
- The employee must receive a written reply in response to the written grievance.
- A grievance hearing/meeting must be held with all relevant parties present.
- Minutes of the meeting must be recorded and any resolution passed must be recorded on the formal grievance form.
- Should the employee not be satisfied, then he/she could refer the matter to the highest level of management.

- Top management should arrange a meeting with all relevant parties concerned.
- Minutes of this meeting should be filed/recorded and the outcome/decision must be recorded on the formal grievance form.
- Should the employee still not be satisfied, he/she may refer the matter to the CCMA who will make a final decision on the matter.
- The matter can be referred to Labour Court on appeal if the employee is not satisfied with the decision taken by the CCMA.

6.3 Types of difficult personalities

- Complainer
- Indecisive
- Over-agree
- Negativity
- Expert
- Quiet

6.4 Ways in which businesses can deal with difficult personalities

TYPE OF PERSONALITY	STRATEGY TO DEAL WITH A PERSONALITY
Complainer	<ul style="list-style-type: none"> • Listen to the complaints but do not acknowledge them • Interrupt the situation and move to the problem-solving process
Indecisiveness	<ul style="list-style-type: none"> • Guide them through alternatives. • Stay in control and emphasise the importance of making a decision. • Help them make the decision or solve the problem
Over-agree	<ul style="list-style-type: none"> • Be firm and do not let them make promises that they cannot keep. • Follow up on their actions
Negativity	<ul style="list-style-type: none"> • Be firm with them and do not let them draw the supervisor into their negativity. • Listen to them but do not agree with them
Expert	<ul style="list-style-type: none"> • Be firm and assertive. • Do not accuse them of being incorrect/Do not get caught in their game. • Know your facts.
Quiet	<ul style="list-style-type: none"> • Do not fill their silence with words • Wait for their response • Prompt them through the process so that they can give input • Restrict the time of the discussion
Aggressive	<ul style="list-style-type: none"> • Allow them time to speak and blow off • Be firm, but do not attack them • Do not allow them to be hostile toward others

NOTE: You must be able to identify difficult personalities from given scenarios/ statements and suggest strategies to deal with EACH type of difficulty personalities.

6.5 Ways in which businesses can deal with difficult employees in the workplace

- Get perspective from others who have experienced the same kind of situation to be able to understand difficult employees.
- Act pro-actively if possible, as a staff/personnel problem is part of a manager's responsibilities.
- Regular meetings with supervisors/departmental heads should help to identify difficult/problem behaviour.
- Ask someone in authority for their input into the situation.
- Identify the type of personality which is creating the problem.
- Meet privately with difficult employees, so that there are no distractions from other employees/issues.

- Make intentions and reasons for action known, so that difficult person/people feel at ease.
- Employees should be told what specific behaviours are acceptable by giving details about what is wrong/ unacceptable and also an opportunity to explain their behaviour.
- A deadline should be set for improving bad/difficult behaviour.
- The deadline date should be discussed with the difficult employee and his/her progress should be monitored/ assessed prior to the deadline.
- Guidelines for improvement should be given.
- Do not judge the person, but try to understand him/her/Understand his/her intentions and why he/she reacts in a certain way.
- Keep communication channels open/Encourage employees to communicate their grievances to management.
- Build rapport/sound relations by re-establishing personal connection with colleagues, instead of relying on e-mails/messaging/social media.
- Help difficult employees to be realistic about the task at hand.
- Remain calm and in control of the situation to get the person(s) to collaborate.
- Treat people with respect, irrespective of whether they are capable/ competent or not.
- Sometimes it may be necessary to ignore and only monitor a difficult person.
- Identify and provide an appropriate support program to address areas of weakness.

CONTENT DETAILS FOR TEACHING, LEARNING AND ASSESSMENT PURPOSES

Learners must be able to:

- Name THREE types of business sectors: primary, secondary and tertiary.
- Identify/Name a business sector from given scenarios/statements.
- Identify business challenges from given scenarios/case studies and classify them according to the THREE business environments.
- State/Explain the extent to which a business (operating in any of the three sectors) can control the three business environments from given scenarios and case studies.

TERMS AND DEFINITIONS

TERM	DEFINITION
Business Sector	A business sector is a sub division/subset of the economic activities, e.g.
Primary sector	This sector deals with extraction of raw materials and natural resources.
Secondary sector	This sector processes raw materials into finished goods.
Tertiary sector	This sector renders services to other businesses/provides auxiliary
Business Environments	All the internal and external factors that affect the functioning of a
Micro environment	This environment is the business itself, it consists of all the elements
Market environment	This environment exists immediately outside the business.
Macro environment	This environment exists outside the micro and the market environments.
Extent of control	The amount of influence that a business has on the business

Introduction

Learners are supposed to select a business from each sector and describe the three environments related to these sectors and the extent to which a business can control these environments.

They are supposed to describe the three business environments related to the three business economic sectors and give an explanation of the extent to which a business can control these environments.

Business sectors

Business sectors are sub divisions/subsets of economic activities, e.g. primary, secondary and tertiary.

1 Types of business sectors

1.1 Primary sector

- This sector deals with extraction of raw materials and natural resources.
- Natural resources which are not man made like coal, gold, fish and livestock are extracted from this sector.
- Examples the primary sector industries; mining, mining, fishing, agriculture, forestry and farming

1.2 Secondary sector

- This business sector is responsible for changing the raw materials acquired from the primary sector into useful products.
- It includes the manufacturing factories, construction and energy generation
- Examples of the secondary sector industries; manufacturing, clothing, food processing, building and construction are found in this sector.

1.3 Tertiary sector

- This sector renders services to the public and businesses.
- It includes services from transport, banking, legal and health.
- Examples of the tertiary sector industries; distribution, banking, insurance, tourism, transportation, entertainment, retail and legal services.

NOTE: You must be able to name the above mentioned business sector from given scenarios/statements

2 Possible business challenges, their environments and extent of control

Possible challenges	Business environment	Extent of control
<ul style="list-style-type: none"> • Difficult employees/ High rate of absenteeism • Lack of vision and mission • Lack of adequate management skills • Unions, strikes and go-slows 	Micro environment	Full control
<ul style="list-style-type: none"> • Competition • Shortages of supply • Demographics and psychographics • Socio-cultural factors 	Market environment	Partial/Some/Limited/Less control
<ul style="list-style-type: none"> • Change in income levels • Contemporary legislation • Labour restrictions • Political changes • Interest rates • Socio-economic issues • HIV and AIDS • Globalisation and International challenges 	Macro environment	No control

NOTE: You will only be able to do the following:

- Quote business challenges from the scenario
- Classify these challenges according to the business environments
- The challenge must be linked to the business environments
- State the extent of control businesses have over each business environment.
- The extent of control must be linked to the business environment

Examples of how the business sectors and their business environments can be assessed

Example 1: Business in the primary sector

Read the scenario below and answer the questions that follow:

DUKA MINES (DM)

Duka Mines specialises in the extraction of platinum. Their suppliers of mining equipment have increased their prices by more than 20%. The supervisor does not have a good working relationship with his employees. DM can no longer export their products due to an increase in the exchange rate.

You need to identify the business sector in which Duka Mines operates and motivate your answer by quoting from the scenario.

Duka Mines is operating in the primary sector because the business specialises in the extraction of mines.

You need to quote challenges from the above scenario, classify EACH challenge according to business environment and state the extent of control DM has over EACH business environment

CHALLENGES	BUSINESS ENVIRONMENTS	EXTENT OF CONTROL
1 Their suppliers of mining equipment have increased their prices by more than 20%.	Market environment	Partial/Some/Limited/Less control
2 The supervisor does not have a good working relationship with his employees.	Micro environment	Full control
3 DM can no longer export their products due to an increase in the exchange rate.	Macro environment	No control

Example 2: Business in the secondary sector

Read the scenario below and answer the questions that follow:

SUPER ENERGY ENTERPRISE (SEE)

Super Energy Enterprise produces maize meal and instant soft porridge. They buy their raw material from Early Bird Maize Farm which is out of stock sometimes. SEE employees are regularly absent from work. The local government has instructed the management of SEE to register their products with the South African Bureau for Standards.

Name the business sector in which Super Energy Enterprise is operating

SECONDARY SECTOR

Identify THREE challenges for SEE's business and classify EACH challenge according to the business environment.

CHALLENGE	BUSINESS ENVIRONMENT
(a) SEE employees are regularly absent from work	Micro environment
(b) They buy their raw material from Early Bird Maize Farm which is out of stock sometimes.	Market environment
(c) The local government has instructed the management of SEE to register their products with the South African Bureau of Standards.	Macro environment

Example 3: Business in the tertiary sector

Read the scenario below and answer the questions that follow:

TIMOTHY LEGAL SERVICES (TLS)

Timothy Legal Services (TLS) is situated at the Pretoria CBD. TLS's assistant lawyers are not trained to handle criminal cases. Another law firm, Mbuzi Inc. has set up a law practice in the same office block as TLS. TLS can no longer pay their bank loan due to an increase in interest rates.

Name the business sector in which TLS is operating. Motivate your answer by quoting from the scenario above.

Business sector: Tertiary sector

Motivation: Timothy Legal Services (TLS) is situated at the Pretoria CBD

Identify THREE challenges for TLS business and classify EACH challenge according to the business environment. State the extent of control TLS has over EACH business environment

CHALLENGE	BUSINESS ENVIRONMENT	EXTENT OF CONTROL
TLS's assistant lawyers are not trained to handle criminal cases.	Micro environment	Full control
Another law firm, Mbuzi Inc. has set up a law practice in the same office block as TLS.	Market environment	Partial/Some/Limited/Less control
TLS can no longer service their bank loan due to an increase in interest rates.	Macro environment	No control

NOTE: You may sometimes asked to name three business environments and explain the extent of control businesses have over EACH business environment e.g.

BUSINESS ENVIRONMENTS	EXTENT OF CONTROL
Micro environment	Full control
Market environment	Partial/Some/Limited/Less control
Macro environment	No control

2 Leadership styles

- Democratic
- Autocratic
- Laissez-Faire/Free Reign
- Charismatic
- Transactional

NOTE: The explanation of EACH leadership style is embedded in the advantages of each style below.

3 Situations in which each leadership style can be applied in the workplace and the impact of each leadership style on businesses

3.1 Democratic leadership style

This leadership style can be applied when:

- Group members are skilled and eager to share their ideas.
- The leader does not have all the information needed to make a decision and employees have valuable information to contribute.
- Cooperation is needed between a leader and a team.
- Decisions need to be looked at from several perspectives

Impact of the democratic leadership style on businesses

Positives/Advantages

- The leader allows the employees to participate in the decision making process, so they feel empowered/positive.
- Staff gives a variety of ideas/inputs/feedback/viewpoints that can lead to innovation/improved production methods/increased sales.
- Clear/Two way communication ensures group commitment to final decision(s).
- Authority is delegated which can motivate/inspire workers to be more productive.
- Complex decisions can be made with inputs from specialists/skilled workers.

AND/OR

Negatives/Disadvantages

- Incorrect decisions may be made if staff is inexperienced/not fully informed.
- Decision making may be time consuming because stakeholders have to be consulted.
- Employees may feel discouraged if their opinions/inputs are not considered.
- Leaders can rely too much on the input of the followers and fail to make a final decision.
- Not effective in times of crisis/when quick decisions need to be made.
- Some employees only pretend to participate in decision making and their feedback may not always be accurate.

3.2 Autocratic leadership style

This leadership style can be applied when:

- In crisis situations, e.g. in the case of unforeseen challenges/accidents.
- When all the information is available to solve the problem.
- In a crisis/urgent situation, e.g. after an accident/meeting tight deadlines
- When employees are motivated and the leader has already earned the trust of the followers.
- When dealing with employees who are not cooperative.
- When employees are new/not fully trained.

Impact of the autocratic leadership style on businesses

Positives/Advantages

- Quick decisions can be taken without consulting/considering followers/ employees.
- Work gets done in time/on schedule.
- Line of command/communication is clear as it is top-down/followers know exactly what to do.
- Direct supervision and strict control ensure high quality products/service.

- Provides strong leadership which makes new employees feel confident and safe.
- Works well in large companies where consultation with every employee is impractical.
- Clear guidance can be given to low-skilled/inexperienced/new staff.

AND/OR

Negatives/Disadvantages

- Leaders and followers may become divided and may not agree on ways to solve problems.
- Workers can become demotivated if their opinions/ideas are not considered.
- De-motivated workers impact negatively on productivity.
- New/Creative/Cost reducing ideas may not be used/implemented/never be considered.
- Followers may feel that they are not valued resulting in high absenteeism/high employee turnover.
- Experienced/Highly skilled workers will resist an autocratic leadership style because it results in slow growth/low participation/less creativity.

Differences between the democratic and autocratic leadership styles

DEMOCRATIC	AUTOCRATIC
<ul style="list-style-type: none"> • The leader involves employees in the decision making process. 	<ul style="list-style-type: none"> • A leader takes all decisions alone without involving employees.
<ul style="list-style-type: none"> • Clear/Two way communication ensures group commitment to final decision(s). 	<ul style="list-style-type: none"> • Line of command/communication is clear as it is top-down/followers know exactly what to do.
<ul style="list-style-type: none"> • People-oriented, as employee's feelings and opinions are considered. 	<ul style="list-style-type: none"> • Task-orientated as the opinions of employees are not considered.
<ul style="list-style-type: none"> • Workers feel empowered as they are involved in the decision-making process. 	<ul style="list-style-type: none"> • New employees feel confident/safe as strong leadership is provided.
<ul style="list-style-type: none"> • Useful when the leader depends on the inputs of experienced followers. 	<ul style="list-style-type: none"> • Useful in a crisis/urgent situation, e.g. after an accident/meeting tight deadlines.
<ul style="list-style-type: none"> • Handles conflict situations by involving followers in finding the best solution. 	<ul style="list-style-type: none"> • Handles conflict situations by telling followers what they should do.

3.3 Laissez-faire/ Free reign

This leadership style can be used when:

- Subordinates are experts and know what they want/can take responsibility for their actions.
- The leader is very busy and delegation of tasks will increase productivity.
- Team members need to improve/develop leadership skills.
- Suitable when employees are highly experienced and know more about the task than the leader.

Impact of the Laissez-Faire leadership style on businesses

Positives/ Advantages

- Workers/Followers are allowed to make decisions on their own work/ methods.
- Subordinates have maximum freedom and can work independently.
- Leader motivates workers by trusting them to do things themselves/on their own.
- Authority is delegated, which can be motivating/empowering to competent workers/increase productivity.
- Subordinates are experts and know what they want/can take responsibility for their actions.
- Suitable for coaching/mentoring to motivate employees to achieve more/better things.
- It can be empowering for competent followers as they are completely trusted to do their job.
- Individual team members may improve/develop leadership skills.

AND/OR

Negatives/ Disadvantages

- Lack of clear direction/leadership may be demotivating to employees.
- Employees can be held responsible for their own work which may lead to underperformance.

- Could lead to conflict when some team members act as leaders and dictate to other team members.
- Workers are expected to solve their own conflict situations.
- Productivity may be compromised with a lack of tight control over workers not meeting deadlines.
- Productivity might be low, if employees lack the necessary knowledge or skills.

3.4 Charismatic leadership style

This leadership style can be used to:

- Sell vision and achieve excellent results.
- Motivate employees as the leader is energetic/ inspiring.
- Inspire loyalty/hard work among employees.

Impact of charismatic leadership styles on businesses

Positives/Advantages

- Expert at selling vision and achieve excellent results.
- Employees are motivated as the leader is energetic/ inspiring.
- Inspires loyalty/hard work among employees.

AND/OR

Negatives/Disadvantages

- Leader believes more in him/her than the team.
- Projects can collapse if the leader leaves the team.
- Leaders are intolerant of challenges and regard themselves as irreplaceable.

3.5 Transactional leadership style

This leadership style can be applied when:

- When the business wants to maximise employee performance.
- When deadlines have to be met on short notice/under pressure.
- When workers have a low morale.
- When the strategies/business structures do not have to change.
- When productivity levels are very low/not according to targets.

Impact of the transactional leadership style on businesses

Positives/Advantages

- Encourages employees to work hard because they will receive rewards.
- Improves employees' productivity and morale.
- The goals and objectives of the business can be achieved as workers are motivated.
- Employees know what are expected of them.
- Disciplinary action procedures are well communicated.

AND/OR

Negatives/Disadvantages

- Employees may become bored/lose creativity as they have to follow rules/ procedures.
- A transactional leader will have to monitor the work performance of employees to ensure that expectations are met.
- Managing/controlling employees may be time-consuming.
- Some employees may be demoralised/ unmotivated if they fail to reach/meet targets despite having worked very hard.
- Not suitable for team work as all team members can be punished for poor performance caused by one team member.

NOTE: You must be able to identify the above mentioned leadership styles from given scenarios/case studies

4 Leadership theories

- Situational leadership
- Transformational leadership
- Leaders and followers
- Transitional leadership

4.1 Situational leadership theory

- Different leadership characteristics are needed for different situations.
- The task/situation dictates the leadership style that should be applied, so leaders are adaptable/flexible/self-assured.
- Effective application of this theory may enable leaders to accomplish their goals.
- Relationships between leaders and employees are based on mutual trust/ respect/loyalty/integrity/honesty.
- Leaders have the ability to analyse the situation/get the most suitable people in the right positions to complete tasks successfully.
- Leaders analyse group members/objectives/time constraints, to adopt a suitable/relevant leadership style.
- May lead to conflict when leaders use different leadership styles/when managing employees in different situations.
- The success of this theory depends on the kind of relationship that exists between the leader and followers/subordinates/employees.

4.2 Transformational theory

- Suitable for a dynamic environment, where change could be drastic.
- The passion/vision/personality of leaders inspire followers√ to change their expectations/perceptions/motivation to work towards a common goal.
- Strategic thinking leaders develop a long term vision for the organisation and sell it to subordinates/employees.
- Leaders have the trust/respect/admiration of their followers/subordinates.
- Promotes intellectual stimulation/creative thinking/problem solving which result in the growth/development/success of the business.
- Followers are coached/led/mentored/emotionally supported through transformation/change so that they can share their ideas freely.
- Encourages followers to explore/try new things/opportunities.
- Leaders lead by example and make workers interested in their work.
- Leaders have strong, charismatic personalities√ and are very good at motivating staff to achieve results.
- Enable employees to take greater ownership for their work and to know their strengths and weaknesses.

NOTE: The transitional theory has been left on purpose as it is covered by the transformational theory, as both speak to change.

4.3 Leaders and followers

- Teams achieve great results when there is a sense of understanding between the leader and the team of followers.
- Followers listen to what is expected of them and are willing to work as a team.
- Followers easily accept responsibility when something doesn't work out.
- Leaders lead by example and reward positive behaviour.
- Leaders motivate employees to devise alternative strategies to find more efficient ways to use available resources.
- Followers might just trail along depending on leaders and other followers to pull them through the task.

5 The role of personal attitude in successful leadership

- Positive attitude releases leadership potential.
- A leader's good/bad attitude can influence the success/failure of the business.
- Leaders must know their strengths and weaknesses to apply their leadership styles effectively.
- Great leaders understand that the right attitude will set the right atmosphere.
- Leaders' attitude may influence employees'/teams' thoughts/behaviour.
- Leaders should model the behaviour that they want to see in team members.
- Successful leaders consider the abilities/skills of team members to allocate tasks/roles effectively.
- Enthusiasm produces confidence in a leader.
- A positive attitude is critical for good leadership because good leaders will stay with the task regardless of difficulties/challenges.
- Successful employees and leaders have a constant desire to work and achieve personal/professional success.
- Leaders with a positive attitude know that there is always more to learn/space to grow.

NOTE: You must be able to identify the role of personal attitude in successful leadership from given scenarios/case studies.

- Management ensures that each employee is responsible for the quality of his/her work/actions.
- TQM focuses on achieving customer satisfaction and looks for continuous improvement in all the business's processes, products and services.
- TQM takes steps to ensure the full involvement and co-operation of all employees in improving quality.

6.2 TQM elements

- Continuous improvement to processes and system
- Continuous skills development/ Education and training
- Total client/customer satisfaction
- Adequate financing and capacity
- Monitoring and evaluation of quality processes

6.3 Impact of total quality management elements on large business

6.3.1 Impact of continuous improvement to processes and systems on large businesses

Positives/Advantages

- Large businesses have more resources to check on quality performance in each unit.
- Enough capital resources are available for new equipment required for processes and systems.
- Large businesses have a person dedicated to the improvement of processes and systems.
- Willing to take risk on/try new processes and systems because they are able to absorb the impact of losing money.
- They can afford to use the services of the quality circles to stay ahead of their competitors.

AND/OR

Negatives/ Disadvantages

- Large scale manufacturing can complicate quality control.
- Systems and processes take time and effort to implement in large businesses as communication/buy-in may delay the process.
- Risk of changing parts of the business that are actually working well.
- Not all negative feedback from employees and customers is going to be accurate, which may result in incorrect/unnecessary changes to systems and processes.

6.3.2 Impact of continuous skills development/Education and training on large businesses

Positives/Advantages

- Large businesses have a human resources department dedicated to skills training and development.
- Human resources experts ensure that training programmes are relevant to increased customer satisfaction.
- Ability to afford specialised/skilled employees.
- Large businesses could conduct skills audits to establish the competency/education levels of staff performing work which could affect the quality of products/processes positively.

- May be able to hire qualified trainers to train employees on a regular basis.

AND/OR

- Benchmarking is used to find best practices in order to determine the competitive position of the business.
- Quality circles meet on regular basis to evaluate the progress in terms of quality.
- Continuous research is conducted on latest developments to ensure that TQM planning is up to date.

AND/OR

Negatives/ Disadvantages

- Large businesses are often divided and the departments work in silos. It is difficult to get everyone to communicate.
- It often takes longer to detect problems or respond to weaknesses
- It is not viable to check quality of all the products

7 Application of the PDCA model/cycle in improving the quality of products

Plan

- The business should identify the problem.
- Develop a plan for improvement to processes and systems.
- Answer questions such as '*what to do*' and '*how to do it*'.
- Plan the method and approach.

Do

- The business should implement the change on a small scale.
- Implement the processes and systems

Check/Analyse

- Use data to analyse the results of change.
- Determine whether it made a difference.
- Check whether the processes are working effectively.
- The business should assess, plan and establish if it is working/if things are going according to plan

Act as needed

- Institutionalise the improvement.
- Devise strategies on how to continually improve.
- If the change was successful, implement it on a wider scale.
- Continuously revise the process.

NOTE: The PDCA model forms part of the TQM element continuous improvement to processes and systems

8 Role/Importance of quality circles as part of continuous improvement to processes and systems

FACTORS THAT CONTRIBUTES TO THE SUCCESS AND FAILURE OF THE FORM OF OWNERSHIP

CRITERIA	SUCCESS FACTORS	FAILURE FACTORS
	PARTNERSHIP	
Capacity	<ul style="list-style-type: none"> • Simple to establish a partnership entity. • Encourages expansion as more partners join the business. 	<ul style="list-style-type: none"> • In large partnership, the partners may struggle to agree on business issues. • The more partners in the partnership, the more difficult it is to control expenses and partners' drawings.
Management	<ul style="list-style-type: none"> • Partners are actively involved in management and may use the ideas of other partners. 	<ul style="list-style-type: none"> • Decision making can be time- consuming as all partners have to be in agreement.

	<ul style="list-style-type: none"> • Not all partners need to be actively involved in management and would rather appoint competent managers. • Partners have access to expertise of other partners when tough decisions have to be made. 	<ul style="list-style-type: none"> • Some management tasks may be neglected, as one partner may leave it to others to complete. • Partners may disagree on how to run the business, which may lead to tension between them. • Partners are agents of the partnership and bad management decisions may be forced onto other partners.
Capital	<ul style="list-style-type: none"> • Partnerships can be financially strong because many partners contribute. • Smooth cash flow as there is enough working capital. 	<ul style="list-style-type: none"> • Partners may lose their capital contribution if the business fails. • Partners don't contribute skills which might be unfair to partners who also have skills. • Partners may not all have capital to put into business when needed. • Unequal inputs as some partners put in expertise instead of cash.
Legislation	<ul style="list-style-type: none"> • Easy and expensive to establish/partners must draw up partnership agreement. • Partnerships may apply for local tenders. • Partners are more motivated to make a success because their personal possessions are at risk. 	<ul style="list-style-type: none"> • An oral agreement may create problems for partners in future which can affect its success. • Partners are jointly and severally liable for business debts. • Unlimited liability/ partners are jointly and severally liable for the debts of the business. • If one partner dies or retires, the remaining partners need to draw up a new agreement.
Taxation	<ul style="list-style-type: none"> • Partnerships pay VAT only on relevant products sold/services rendered which reduces tax administration. • The partnership does not pay income tax, only the partners in their personal capacities. 	<ul style="list-style-type: none"> • Failure to comply with tax regulations by one or more partners may lead to business closure. • Individual tax paid by partners on income earned is higher than fixed tax rate percentage paid by companies/close corporations. • High-earning partners pay more tax, which may discourage other partners from joining the partnership. • Partners may withdraw more cash to reduce their tax burden which may cause cash flow problems for the partnership.
Division of profits	<ul style="list-style-type: none"> • Partners share profits according to their contributions. 	<ul style="list-style-type: none"> • Amount of work done may not be equal to the amount of profit that each partner

		receives.
PUBLIC COMPANY		
Capacity	<ul style="list-style-type: none"> • Can raise large amounts of capital as shares/ debentures can be sold to the public/shareholders. • Share capital clause in the Memorandum of Incorporation (MOI) may be changed to issue more shares. • May attract financially strong investors if share value increases/remain stable. 	<ul style="list-style-type: none"> • Very costly to maintain infrastructure and large employee base. • Large amounts of capital required to start a public company. • Large capacity of the company can also lead to its downfall in that structures and processes may become too costly.

Management	<ul style="list-style-type: none"> • Management is in the capable hands of a board of directors who have skills/knowledge/abilities. • Shareholders can vote for/appoint the most capable directors to manage their company. 	<ul style="list-style-type: none"> • Directors may not have a direct interest in the company, which can hamper growth and profit maximisation. • Large management structure can result in decision making taking time. • Directors' fees increase the company's expenses which reduces net profit. • Management may open to legal challenges if their reports do not comply with King Code 111.
Capital	<ul style="list-style-type: none"> • Can raise large amounts of capital as shares/ debentures can be sold to the public/shareholders. • Amount of shares available can be increased to raise capital. 	<ul style="list-style-type: none"> • Shareholders are entitled to see a company's financial statements which impacts on the privacy of the company. • Growth is limited if sufficient capital cannot be raised. • Share prices change all the time and can lose their value.
Legislation	<ul style="list-style-type: none"> • The company and its owners (shareholders) are separate entities, which may encourage more people to join the company. • Limited liability allows for greater risk taking, which may lead to growth of the business. • Auditing of financial statements, gives shareholders the assurance that the business is being properly managed. 	<ul style="list-style-type: none"> • Formation procedures are time consuming/complicated/ expensive, as many legal documents need to be prepared/submitted. • High formation/establishment expenses require large start-up capital. • Annual audit of financial statements is costly. • If a public company does not comply with legislation, its licence maybe withdrawn by the Companies and Intellectual Property Registration Office (CIPRO)/Companies and Intellectual Property Commission (CIPC).
Taxation	<ul style="list-style-type: none"> • Can obtain tax rebates if they are involved in SCI projects. • Can obtain government tenders and renew their licenses if they do not evade tax. 	<ul style="list-style-type: none"> • Subject to double taxation e.g. shareholders pay secondary tax this can have a negative impact to a company that is already financially struggling.
Division of profits	<ul style="list-style-type: none"> • Profits could be split between company and shareholders. • Shareholders receive return on investment, when dividends are paid out according to the type 	<ul style="list-style-type: none"> • Dividends are not always paid out which may discourage new investors. • Subject to double taxation e.g. shareholders pay secondary tax this can have a negative impact to a company that

Division of profits	<ul style="list-style-type: none"> • High profits and good returns to shareholders indicate the success of a company, which increases the value of shares. • Profits generated can be re-invested to expand business operations. • Shareholders receive profits according to the type and number of their shares. 	<ul style="list-style-type: none"> • Shareholders may sell their shares when dividends are low, resulting in a drop in share prices. • Dividends are not always paid out which may discourage new investors.
SOLE PROPRIETOR		
Capacity	<ul style="list-style-type: none"> • Easy to control since it is a small business. 	<ul style="list-style-type: none"> • Difficult to continue and grow long term. • Difficult to get good, well-trained staff as they are expensive. • Owner has to manage and carry out all business functions.
Legislation	<ul style="list-style-type: none"> • No registration required to establish this business. • Expensive annual audit of financial statements is not required. • Unlimited liability may encourage the owner to work harder to ensure the success of the business. 	<ul style="list-style-type: none"> • Personal debts and business debts are one. • Must comply with relevant municipal regulations to avoid closing down. • The owner is personally liable for the business debt; he/she may be reluctant to take calculated risk.
Taxation	<ul style="list-style-type: none"> • Owner only taxed on profits in personal capacity. • Depending on how much income the owner earns, his/her tax rate may be lower than the company tax rate. • If the owner earns below a certain threshold amount per year, no income tax is payable and the business's profits are thus not taxed. 	<ul style="list-style-type: none"> • If profits get too big may end up paying high tax in personal capacity. • Failure by the owner to comply with personal income tax regulations could lead to substantial financial penalties imposed by SARS.

Capital	<ul style="list-style-type: none"> • Capital can be carefully spent and managed. • The owner may be able to borrow money from a financial institution, especially if he/she has assets that can be used as surety for a loan. 	<ul style="list-style-type: none"> • Limited capital available for expansion. • Cannot appoint people with large salaries. • Owner responsible for any capital borrowed.
Management	<ul style="list-style-type: none"> • One owner so there is no disagreements. • Can make quick decisions without having to consult others. 	<ul style="list-style-type: none"> • Owner has to do all the administration, management and decision-making in the business. • Owners has to rely on own decisions and could make incorrect ones.
Division of profits	<ul style="list-style-type: none"> • Owner receives all profits from the business which can lead to capital growth. 	<ul style="list-style-type: none"> • Owner needs to budget carefully so that business debts are covered. • If the owner does not make a profit, the income and livelihood of the owner may be severely affected.

TOPIC: PRESENTATION AND DATA RESPONSE

INTRODUCTION

Presentation of data and information forms a critical part of the work of managers and supervisors in any business.

Convening business related information to other stakeholders in the business provides them with the information to make strategic, tactical and operational decisions. Presenters can learn good presentation skills to enable them to present more confidentiality.

Key concepts

These definitions will help you understand the meaning of key presentation concepts that are used in this chapter.

Term	Definition
Presentation	The act of communicating information/data to an audience/stakeholders in an organisation.
Data Response	Interpretation and analysis of information provided.
Feedback	Information about a presentation by an audience which is used as a basis for improvement.
Non-verbal presentation	Presentation of information to an audience without using spoken words.
Visual aids	Refers to charts/pictures/images that help to clarify a point/enhance a presentation.
Tables	A set of facts/figures systematically displayed, especially in columns.
Graphs	Two-dimensional drawing showing a relationship between two set of variables by means of a line/curve/bars.
Diagrams	A drawing showing the appearance/structure/workings of data in a schematic representation.
Flipchart	A large pad of paper, bound so that each page can be turned over at the top to reveal the next page, used on a stand.
Hand-outs	Printed information provided to the audience to accompany a presentation.

Factors that must be considered before making the presentation

- List the objectives and main points of the presentation.
- Capture main aims in the opening statement of the presentation.
- Information presented should be relevant and accurate.
- Be fully conversant with the content of the presentation.
- Prepare a rough draft of the presentation with a logical structure that includes an introduction, body and conclusion.
- In conclusion, summarise the key facts and how it relates to the objectives/shows that all aspects have been addressed.

Factors that must be considered during a presentation

- Make eye contact with the audience and look in all directions.
- Be audible to the audience.
- Adjust your voice level and tone to avoid monotony.
- Add some appropriate humour in the presentation.
- Use visual aids effectively to enhance the presentation.
- Put the most important information first to capture the audience attention.
- Summarise the presentation in the conclusion.

Factors that must be considered after making the presentation/ professional handling of feedback

- Ensure that you understand each question/what is being asked.
- Rephrase questions if uncertain, before responding.
- Listen carefully to each question and think carefully before responding.
- Address questions and not the person.
- Acknowledge good questions.
- Remain professional/polite/calm/non-aggressive.
- Do not get involved in a debate or argument.

Areas for improvement of the next/a future presentation

- Revise objectives that were not achieved.
- Use humour appropriately.
- Always be prepared to update/keep information relevant.
- Reflect on any problem/criticism and avoid it in future presentations
- Any information received as feedback from a presentation should be analysed and where relevant, used to update/amend the presentation.
- Reflect on the time/length of the presentation to add/remove content.
- Increase/Decrease the use of visual aids or replace/remove aids that did not work well.
- Reflect on the logical flow of the format/slides/application of visual aids.

Examples of non-verbal presentation

- Tables
- Graphs
 - bar graph
 - line graph
 - histogram
 - pie graph
- Diagrams
- Illustrations/Pictures/Photographs/Scenarios
- Written/Business reports
- Flip charts
- Handouts
- Slide shows

Factors to be considered when designing a multimedia presentation

- Start with the text.
- Select the background.
- Choose images/graphics that may help to communicate the message.
- Add special effects, like sound and animation
- Use legible font and font size

- Keep slides/images/graphs/font simple.
- Make sure there are no spelling errors.
- Use bright colours to increase visibility.
- Limit the information on each slide.

Effectiveness of visual aids

POWERPOINT SLIDES	
Advantages	Disadvantages
<ul style="list-style-type: none"> • Easy to combine with sound/video clips • Video clips provide variety and capture the attention of the audience. 	<ul style="list-style-type: none"> • Unable to show slides without electricity/data projector. • Less effective to people with visual impairments.
OVERHEAD PROJECTOR	
Advantages	Disadvantages
<ul style="list-style-type: none"> • Summaries/Simple graphics may be easily explained on transparencies. • Transparencies can be prepared manually or electronically on the computer. 	<ul style="list-style-type: none"> • Not easy to combine with sound/audio. • Unorganized transparencies may convey an unprofessional image.
INTERACTIVE WHITEBOARD/SMART BOARDS	
Advantages	Disadvantages
<ul style="list-style-type: none"> • Images can be projected directly from computer so no external projector is necessary • Additional notes that were added during the presentation can be captured on the computer after the presentation. 	<ul style="list-style-type: none"> • Can only be used by a presenter who knows its unique features. • Cannot be connected to any computer as special/license software is needed to use it.
HANDOUTS	
Advantages	Disadvantages
<ul style="list-style-type: none"> • Meaningful hand-outs may be handed out at the start of the presentation to attract attention. • Copies of hand-outs can be distributed at the end of the presentation as a reminder of the key facts. 	<ul style="list-style-type: none"> • Handing out material at the start of the presentation may distract the audience. • Some details might be lost/omitted as it only summarises key information.

POSTERS/SIGNS/BANNERS/PORTABLE ADVERTISING STANDS/FLAGS	
Advantages	Disadvantages
<ul style="list-style-type: none"> • Useful in promoting the logo/vision of the business • Able to make a positive impact when placed strategically in/outside the venue 	<ul style="list-style-type: none"> • Only focusses on visual aspects as it cannot be combined with sounds. • May not always be useful in a small venue/audience as it can create a 'crowded' atmosphere.
FLIPCHARTS/WHITEBOARDS	
Advantages	Disadvantages
<ul style="list-style-type: none"> • Mainly used for a small audience to note down short notes/ideas. • Very effective in brainstorming sessions as suggestions are summarized/listed 	<ul style="list-style-type: none"> • Illegible handwriting may not contribute to a professional image. • It is time consuming to prepare
