#### 5.2 INTERNAL CONTROLS

Sizwe Ntakumba feels that he has two problems in his business:

- Stock is going missing from the shop. He suspects that either the customers or his employees are stealing stock from his shop.
- The business is paying too much for vehicle repairs and maintenance.
   He suspects that drivers are misusing business vehicles for their personal trips.

Provide internal control measures that can be implemented by Sizwe Ntakumba to safeguard:

- 5.2.1 Stock against theft by **customers** and **employees**. Give ONE point to address **customers** and ONE point to address **employees**. (4)
- 5.2.2 Vehicles against misuse. Give TWO points. (4)

#### 5.3 **ETHICS**

- 5.3.1 Give ONE term for the following basic principles of Ethics:
  - (a) Keep social justice in mind when making decision.
  - (b) Provide good corporate governance for a business.
  - (c) Commitment to controlled behaviour.
  - (d) Manage business so that it will exist in future.
  - (e) Take responsibility for actions.

(5)

ACCOUNTING MARKING GUIDELINES

MARKS: 200

#### **MARKING PRINCIPLES:**

Stanmorephysics.com

- Unless otherwise stated in the marking guideline, penalties for foreign items are applied only if the candidate is not losing marks elsewhere in the question for that item (no penalty for misplaced item). No double penalty applied.
- Penalties for placement or poor presentation (e.g., details) are applied only if the candidate is earning marks on the figures for that item.
- 3. Unless otherwise stated, give full marks for correct answer. If answer incorrect, mark workings.
- 4. If a pre-adjustment figure is shown as a final figure, allocate the part-mark as a working mark for that figure (not the method mark for the answer). *Note:* if figures are stipulated in marking guideline components of workings, these do not carry the method mark for final answer as well.
- 5. Unless otherwise indicated, the positive or negative effect of any figure must be considered to award the mark. If no + or sign or bracket is provided, assume that the figure is positive.
- 6. Where indicated, part-marks may be awarded to differentiate between differing qualities of answers from candidates.
- 7. If candidates provide more than the required number of responses, inspect all responses to give benefit to the candidate Penalties may be applied for foreign entries if candidates earn full marks on a question (max -2 per Q).
- 8. Where penalties are applied, the marks for that section of the question cannot be a final negative.
- 9. Where method marks are awarded for operation, marker must inspect the reasonableness of the answer.
- 10. Operation means 'check operation'. 'One part correct' means operation and one part correct. **Note:** check operation must be +, -, x, ÷, as per candidate's calculation (if valid) or per marking guideline.
- 11. In calculations, do not award marks for workings if numerator & denominator are swapped this also applies to ratios.
- In awarding method marks, ensure that candidates do not get full marks for any item that is incorrect at least in part. Indicate
  with a ⋈.
- Be aware of candidates who provide valid alternatives beyond the marking guideline. Note that one comment could contain different aspects.
- 14. Codes: f = foreign item; p = placement/presentation.
